Since the side panels are detachable, access to the cabinet is ensured both from the front and sides in wall mounting applications and from the all sides in free standing applications.

By means of 145mm x 70mm cable inlet holes at the upper, lower and rear door of the cabinet, it provides cable inlet at 3 directions which in turn facilitates installation.

Thanks to the rubber edged cable entry module, movable for 0-50 mm and with sliding compression system, incoming cables are compressed safely whereas dust is reduced inside at maximum levels.
