

ThinkPad L13 Gen 2 (AMD)

This 13.3" ultrathin ThinkPad comes packed with enhancements designed to deliver a more powerful, secure and enjoyable user experience. Modern business professionals can speed through heavy workloads with the latest AMD Ryzen™ 5000 PRO series processors, up to 16GB DDR4 memory, and up to 1TB PCIe SSD storage. With its lightweight design, a brilliant display panel, and a battery that lasts close to 10 hours – it is the ideal choice for the work-from-anywhere workforce.

Lenovo devices that are a class apart

The mid-range ThinkPad L Series offers enterprise docking, enhanced security features and optional remote management capabilities.

Keeping device and data protection on the forefront, the laptop comes with built-in ThinkShield security features, including the match-on-chip fingerprint reader, power-on password, TPM 2.0 encryption and optional IR camera for Windows Hello facial recognition.

Wi-Fi 6 technology offers faster and more secure connections to the internet, even on congested networks. Multiple ports like USB-C 3.2 and HDMI 2.0 allow for faster downloads, and easy connection to high-resolution video streams.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
