

XPG LANDER 500

FEATURES

XPG LANDER 500 Mid-Tower Chassis, a sleek and versatile choice for PC enthusiasts and gamers. With its black SPCC material and tempered glass side panels, it offers a modern and durable design. Compatible with ATX, M-ATX, and ITX motherboards, it provides ample space for storage with two 3.5" HDD/HDD trays and two 2.5" HDD/SSD trays. The chassis features convenient connectivity with two USB 3.2 ports, a hybrid audio port, and dedicated reset and power buttons. With excellent cooling potential supporting multiple fans and radiator configurations, it ensures optimal performance and longevity for your components. The XPG Lander 500 Chassis also offers generous clearance for CPU coolers up to 160mm in height, graphics cards up to 340mm in length, and PSUs up to 170mm in length. It's the perfect choice for building a powerful and visually stunning system.
