Easy smart lighting

Get powerful, colourful light, an integrated 1080p camera with night vision, and the ability to see what's going on and control the light right from the Philips Hue app. Mount it outside to monitor your home in real time — and then trigger an alarm to warn off potential intruders.

Easy smart lighting

- All-in-one security
- Two-way talk
- Live view
- Powerful, colourful light
- End-to-end encryption
- Made for outdoors

Highlights

All-in-one security

By combining Philips Hue floodlights and Secure cameras, you get a suite of smart home security features in one fixture.

Powerful, colourful light

The colour-capable light offers up to 2250 lumens, meaning it can easily illuminate larger areas, such as a driveway or back garden.

Two-way talk

Warn off a potential intruder – or just say hello to a friendly face with camera's microphone and speaker.

End-to-end encryption

We protect your privacy. Philips Hue Secure cameras use end-to-end encryption (E2EE) by default. All video, audio, and snapshots are encrypted with a passphrase that only you have.

Live view

Check your camera's live view in the Philips Hue app – made even clearer by the outdoor security floodlight's powerful, high-lumen light – to see who's there.

Made for outdoors

The Secure floodlight camera can be mounted anywhere outside your home, no matter the weather.
