Power Cord C14 to C15 - Heavy-Duty, 15A, 250V, 14 AWG, 10 ft. (3.1 m), Yellow

MODEL NUMBER: **P018-010-AYW**

Connects a PoE network switch or server with a C16 power inlet to a PDU or UPS system with C13 outlets.

Highlights

- Recommended for powering PoE switches with high-wattage power supplies
- 10 ft. length allows flexibility in placing devices while avoiding cable clutter
- Ideal replacement or upgrade from the original manufacturer's power cord
- Yellow jacket permits fast, easy identification in a crowded rack
- Thick 14 AWG wire gauge manages high power levels required for larger equipment

Package Includes

P018-010-AYW C14 to C15 Power Cable, 10 ft. (3.1 m), Yellow

Features

C15 to C14 Power Cord for Network Devices That Require a Heavy-Gauge Connection
This 250V power cable features 14 AWG wire suitable for high-power connections, making it reliable for large server applications that require a higher-rated, heavier-gauge cable. The C15 connector is designed for higher-temperature devices, such as PoE (Power over Ethernet) switches with high-wattage power supplies and similar network components. This cord can also replace or upgrade the standard power cord provided by the device's manufacturer.

Yellow Jacket Helps Avoid Misidentification That Can Cause Costly Downtime
The UL-listed cable has a yellow SJT jacket, which is easy to identify quickly in a crowded PDU or UPS system and helps prevent the cable from becoming accidentally disconnected.
