3. 3.5mm audio input for connection to a wide range of sound sources.

4. Built-in high capacity battery for up to 2 hours of consecutive playback.

5. Connect the microphone and use adjustable reverberation, voice and Karaoke function for outstanding performances.

6. Battery with built-in recharging protection to ensure a long and stable service life.

7. Built-in low battery and full recharging indication. Human-oriented use.

8. With belt/handle design for best choice of mobile speaker.

9. Microphone recording input can be used as your personal business assistant.

10. Supports Bluetooth and TWS function.

## II. Recording

Recording via External Microphone:

Connect a storage device (USB/TF card) and briefly press RECORD to start recording for a duration that depends on the storage capacity. During recording, tune the "-ECHO+" button to minimum. Note that the microphone should be located a proper distance away from the speaker to prevent any feedback or noise.

Note: This product starts recording from the time as displayed on the LED screen.

III. Bluetooth pairing operation and related parameters:

1.Power: switch ON the power, press "MODE" to enter Bluetooth mode. The display screen will show "BLUE".

2.Switch on the Bluetooth function of your mobile phone and start searching. When the mobile phone shows "**PartySpeaker XXL1**", immediately click on connect. The mobile phone connection does not require a password. If a password is asked, please enter "0000" to continue pairing. After successful pairing, the speaker sends out a prompt message. This means that the pairing between mobile phone and Bluetooth speaker has been successful.

3.Play the music on your mobile phone and you will hear a good sound from the speaker.

IV. Functional Operations and Features

1. LED screen.

2. VOLUME PRESS BASS/TREBLE/MIC VOL/ECHO/GT.VOL ：By default, this button regulates the master volume. Press once briefly for bass adjustment. Press twice briefly for high pitch adjustment.
