PREPARATION

Recommendations regarding placement of the pool:

- Do not install the pool on a slope or inclined surfaces, on soft or loose soil conditions (such as sand or mud), or on an elevated surface such as a deck, platform or balcony, which may collapse under the weight of the filled pool.
- It is essential the pool is set up on solid, level ground. If the pool is set up on uneven ground it can cause collapse of the pool and flooding, causing serious personal injury and/or damage to personal property.
 - Do not set up on driveways, decks, platforms, gravel or asphalt. Ground should be firm enough to withstand the pressure of the water; mud, sand, soft / loose soil or tar are not suitable.
 - The ground must be cleared of all objects and debris including stones and twigs.

- Check with your local city council for by-laws relating to fencing, barriers, lighting and safety requirements and ensure you comply with all laws.
