

MPN: 0070-24107-TESTER

7" Touch Screen 4K Test Monitor, Wi-Fi, Supports HDCVI/AHD/TVI/CVBS, DC12V, 12V 2A Power Output

This tester is a test tool designed for on-the-spot installation and maintenance of video surveillance. It combines multiple test functions, which can play a role in installation, maintenance and other work of analog SD, analog HD and network HD video surveillance systems.

This tester is powerful, simple, convenient to operate and easy to carry, which is an essential tool for engineering providers to improve the work efficiency and reduce the engineering costs.

For specific cameras like Axis, be sure the user is also created as an ONVIF user, else the tester can't recognize user and password.

- Support IP, HDCVI/AHD/HDTVI/CVBS
- Highly compatible with ONVIF protocol
