PHILIPS

Highlights

Cast directly from any device

Teachers and students can cast directly from their device with AirPlay, Google Cast, and Miracast.

Powered by Android

Our integrated Android 13 OS has been specially developed to bring a next level secure professional System on Chip. Save your favourite apps and software directly into the display or, choose from the large library of Android apps and play content from there.

Multi-touch technology

Create a memorable interactive experience with up to 40 touchpoints at the same time for

slick, agile lessons. Perfect for collaborative and competitive applications, this display connects your audience with any content. And the touch panel is HID compliant, providing true plug-and-play operation.

OPS slot

Integrate a full-power PC or Android-powered CRD module directly into your Philips Professional Display. The OPS slot contains all the connections you need to run your slot-in solution, including a power supply.

Wireless presentations

Philips ScreenShare makes it easy for teachers and students to wirelessly share their screens

from their own device, whatever the operating system, via the browser or their favourite apps, onto the Philips Interactive E-Line display.

PPDS Wave-ready

Your PPDS Wave-ready display enables you to manage and maintain this device remotely, wherever you are, whenever you choose. This evolutionary cloud platform puts you fully in control, with simplified installation and set-up, monitoring and controlling displays, upgrading firmware, managing central content needs, and setting power schedules. Saving you time, energy and environmental impact.
