Xerox® VersaLink® C625 Color Multifunction Printer and Xerox® VersaLink® C620 Color Printer

Is personalization, future readiness, and built-in security too much to ask for? Small enough to fit where you need them and fast enough to support high print volumes, these smart Workplace Assistants are made for high-performing work teams. The Xerox® VersaLink® C625 Color Multifunction Printer (MFP) offers multifunction agility with print, copy, scan and fax, while the Xerox® VersaLink® C620 Color Printer delivers flawlessly for print-centric needs.

COMPACT WITHOUT COMPROMISE

Make the most out of every square foot of your office space with the small footprint of the C625/C620. Outrageously capable, these workhorses take up less space but get just as much work done. They're perfectly sized for scaled-back office spaces and hybrid work environments, where space is a premium and there's no room for disruption.

AUTOMATED PRODUCTIVITY

Get up to speed in no time with a tablet-like touch screen that balances simplicity and time-saving efficiency. Tap into AI-assisted algorithms that learn from you and prioritize your most commonly used tasks to create convenient shortcuts, so you can do more in fewer steps. And the ability to personalize the UI provides the freedom to work the way you want, allowing you to breeze through functions.

Mobility features, such as AirPrint®, Mopria®, and optional Wi-Fi® Direct, take the hassle out of printing directly from your favorite mobile devices. With VersaLink Printers, more capabilities means added convenience, not more complexity. Leading-edge scanning functionality and the automation of complex physical and digital workflows allow you to scan[1], digitize, and route information without missing a beat, reducing errors and saving time.

DISRUPTION-READY TECHNOLOGY

Your work is always evolving, so you need technology that's always a step ahead. The Xerox® ConnectKey® Technology-enabled VersaLink device adjusts quickly to the evolving needs of your organization.

Translator. Proofreader. Do-it-all digitizer. Now you can tackle whatever work throws at you. Stay ready with the Xerox App Gallery, an ever-growing portfolio of cloud-hosted apps and productivity tools.

VersaLink C625 allows access to the optional Xerox® Workflow Central Platform, a cloud-based solution that takes the guesswork out of converting physical and digital files into usable formats right from the VersaLink user interface, even complicated work processes are simple. For example, summarize a lengthy report, translate it, and share with your team in just a few quick steps.

SMARTER, MORE SOPHISTICATED SECURITY

Comprehensive security features work hard to prevent, detect, and neutralize threats in addition to streamlining reporting and automatically remediating IT-required settings. Built-in, predefined security configurations simplify implementation. Just select one of three security templates and let VersaLink do the rest — no expert knowledge required.

IMAGE QUALITY THAT'S A CUT ABOVE

Color is what turns basic, everyday prints into brilliant communications. High-resolution output of 1200 x 1200 dpi enhances your documents with sharp text and striking image quality.

SUSTAINABLE THROUGH AND THROUGH

Made up of more than 25% post-consumer recycled plastic, VersaLink Printers give new meaning to being environmentally responsible. These devices meet the strictest, globally recognized standards for product environmental performance, including EPEAT, Blue Angel, and ENERGY STAR®. The Xerox® Supplies Recycling Program simplifies collection, reuse, and recycling of spent imaging supplies.[2]
