USB Type C Interface Board

Smoothing the way to frictionless meeting experiences

Simplifying meetings

No more cable clutter or connection frustration; just a single cable is all you need to start your meeting and simultaneously charge your notebook.

Benefits

- **Maximum productivity** – connect your notebook with a single cable and start your meeting right away.
 - Automatically charge your notebook battery
 - Transmission of video and audio signals over a secure and stable connection
 - Direct use of connected soundbars, webcams, microphones
 - Automatic connection to your company/guest/Internet network
- **Plug & Play experience** – connect your notebook to the meeting room display and instantly your notebook content will appear on the big screen.
- **Upgradable solution** – the USB Type C Interface Board is compatible with any NEC display that has an Intel Smart Display Module (SDM) slot.
- **Best user experiences** – proven compatibility with the most popular meeting room equipment including soundbars and webcams.
- **Lead from the front** – connect your notebook to an interactive meeting room display to allow full control of your notebook via the touch screen.
