

Thunderbolt 4 Dock - Dual 4K Macbook Pro and M4 Air, Quad Monitor 4K Windows, 16 Port 40Gbps Laptop Docking Station with 100W Charging, 2 x HDMI, 2 x DisplayPort

Product ID: 132N-TB4USB4DOCK

Engineered to maximize performance and future-proof your workspace, this universal USB4 and Thunderbolt 4 dock is Thunderbolt Certified, ensuring reliable connectivity and optimal user experience.

Push the boundaries of productivity with quad 4K 60Hz displays on Windows laptops running the latest Intel 12th Gen CPUs (or later) and DP 1.4 with DSC. Legacy systems still benefit from flexible dual or triple monitor setups.

Experience dual extended 4K displays on MacBook Air and Pro powered by M3, M4 or M5 chips (clamshell mode required for M3), and MacBook M1 / M2 Pro or Max configurations. For Apple computers featuring the M-series base processor only a single display is supported.

Includes a fully spec'd 180W power adapter that enables the dock to charge the laptop with 98W Power Delivery, while preserving enough additional power for the downstream USB 2.0 port to support BC 1.2 with 7W (1.5A) for charging tablets, smartphones or other battery-powered USB devices.
