- Select, customize and save drinks on intuitive display
- 40% quieter with SilentBrew technology**
- Clean LatteGo milk system in under 10 secs

** Based on consumer testing in Germany comparing leading One Touch (Coffee + Milk) Full Automatic Espresso Machines (2023)
****When compared to previous Philips espresso machines
******Based on 8 filter replacements as indicated by the machine. Actual number of cups depends on selected coffee varieties, rinsing and cleaning patterns

Highlights

20 hot & iced drinks

Our 20 recipes range from warming drinks like espresso, milky lattes and cappuccinos, right through to cooling iced coffees. We've calibrated our brewing system so even iced coffees have the same delicious flavour as hot drinks.

LatteGo milk system

Our powerful cyclonic frothing technology lets you create silky smooth milk froth at the touch of a button, even with plant-based milk alternatives.

QuickStart

No more waiting for your machine to warm up. Our QuickStart function allows you to power on your machine and brew a coffee right away. Your machine will heat up based on the selected recipe.

100% ceramic grinders

Bring out the full flavour of your beans with our hardwearing ceramic grinder. Fine-tune the grind size using one of 12 settings, from fine to coarse.

Perfect temperature and aroma

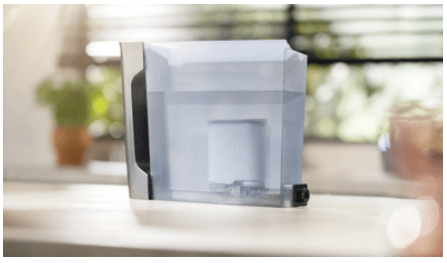

Our Aroma Extract system finds the ideal balance between temperature and aroma by keeping the water temperature between 195F and 210F, all while regulating the water flow rate.

Add an extra shot

Enjoy more flavour without the bitterness by using our extra shot function. You can add it to any of our coffee recipes, except when using the pre-ground function.

AquaClean filter

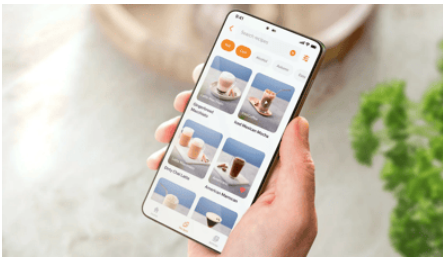

Brew up to 5000 cups without having to descale using an AquaClean filter. It purifies water before brewing begins so your coffee tastes more flavorsome.

Eco Settings

Use one of five Eco Settings to reduce water and energy consumption, without compromising on coffee quality. Our 5500 series allows you to dim the main and cup lights earlier than the default time, use less water while rinsing, switch to standby mode more quickly, or dim brightness.

Machine support on HomeID

Learn the ins and outs of your machine and discover new cafe-style coffee recipes on our HomeID app.

Specifications

Safety feature

Automatic shut-off timer: Yes
Safety certification: Yes

Technical Specifications

Energy Efficiency rating: Class A
Power: 1500W
Voltage: 230 V
Frequency: 50 Hz
Number in pack: 1

Weight and Dimensions

Product Length: 433mm
Product Width: 246 mm
Product Height: 371mm
Product Weight: 8kg
Package Length: 491,5mm
Package Width: 287,5mm
Package Height: 478mm
Package Weight: 10-12,3kg
