Always close to your baby

Reassurance on your baby at home and away

Keep an eye on your baby securely and from anywhere with the Philips Avent Connected Baby Camera. Our HD camera, true talkback function and Secure Connect System keeps you linked to your little one from anywhere with the Baby Monitor+ app.

Monitor your way

- Capture every precious moment with the app
- Sounds to settle and soothe
- Manual camera rotation for a complete view of baby's room

Support your family

- Never too warm or cool, always just right
- Peaceful nap times with soothing ambient nightlight

Freedom, flexibility, comforting and soothing

- Speak and listen to your little one at the same time
- See every wiggle, hear every giggle

Reassurance day and night from anywhere

- Designed to always keep you connected to baby
- Full HD camera with night vision and digital zoom

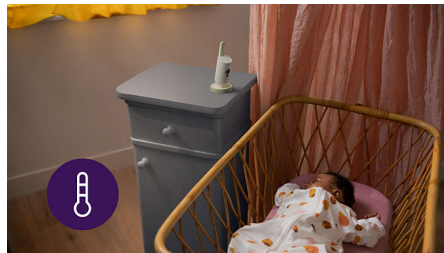

Highlights

Secure Connect System

Our very own Secure Connect System uses multiple, encrypted links from baby unit to the app. For a reassuringly robust and private connection.

Built-in room thermometer

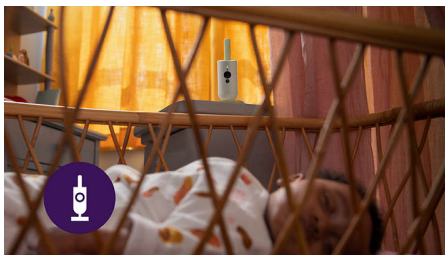

With high and low temperature alerts the integrated room thermometer helps you keep your little one snug as a bug. Just the right amount of cozy for a perfect rest.

True talk back

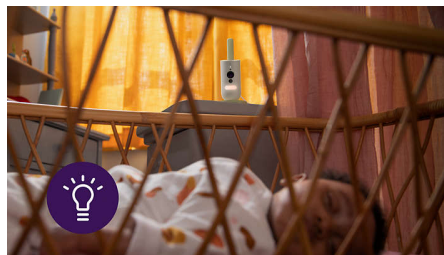

No more walkie-talkies! Our baby monitor only uses true talk back, so with the push of a button, you and your baby can hear each other sing, soothe or giggle without interruption.

Baby Camera with full HD

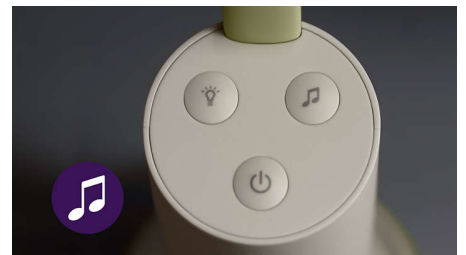

Hear every tiny giggle, gurgle and hic-up with perfect clarity. The baby unit uses a full HD camera with night vision and digital zoom, bringing clear pictures of your little one's room day and night.

Soothing ambient nightlight

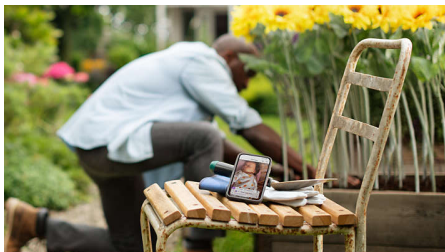

Give your little one's room a comforting glow with the baby unit's integrated ambient nightlight. Turn it on and off or adjust its glow from the Baby Monitor+ app.

Soothing sounds

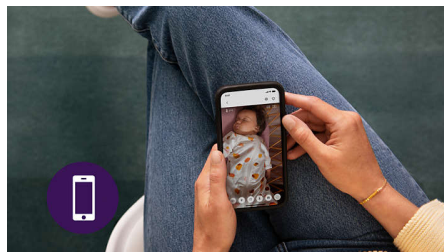

Choose between 15 soothing tracks from garden birdsong and nighttime nature, to lullabies including Rock-a-Bye Baby. And record your own to play back on demand. After all, what is better than the sound of a parent's voice?

Baby Monitor+ app

See and hear your little one at home and away with the Philips Avent Baby Monitor+ app. Using Wi-Fi or mobile internet you can monitor and soothe from anywhere.

Capture every precious moment

Take pictures of your baby and capture every precious moment of your little one with the Baby Monitor+ app.

Manual camera rotation

The view of the camera can be adjusted horizontally and vertically to view different angles of your baby's room.
