- Pulse Wave technology guides from tooth to tooth
- Quad Stream nozzle for maximum coverage
- Easy magnetic dock with auto shut-off
- Whisper quiet for great results without disturbing others

Customize easily to your needs

- 2 flossing modes, 10 intensities

Power Flosser 5000

Oral Irrigator

HX3811/20

Highlights

Covers more area, effortlessly

X-shaped water streams cover more surface area for a faster, deeper clean versus manual floss. Effortlessly.

Guides from tooth to tooth

Gentle pulses of water guide you from tooth-to-tooth so that you don't miss a spot.

Whisper quiet design

Engineered for a discreet clean, so you get great results without disturbing others.

2 modes, 10 intensities

Enjoy a clean that's tailored to your needs. Clean mode uses a continuous flow of water for a great everyday clean, while Deep Clean uses

distinct pulses for a more thorough clean. Whenever you need, adjust the intensity to your ideal comfort level.

F1 Standard nozzle

Use the standard nozzle for a regular clean. It uses a single stream of water to remove debris and clean thoroughly between your teeth.

F3 Quad Stream nozzle

For maximum coverage and an extra thorough clean, use the Quad Stream nozzle to concentrate water into four wide streams between teeth and along the gum line. The soft rubber guide is gentle on gums and every nozzle simply clicks on and off.

550ml reservoir

The 550ml reservoir holds enough water for one cleaning. To refill simply lift out, fill and click back in.

Magnetic dock w/auto shut-off

When you're finished, simply return the handle to the easy magnetic dock. The handle automatically switches from pause to off.
