NANOCABLE
The way to connect

5 in 1 USB-C HUB

USB-A + USB-C + USB-C PD CONVERTER

10.16.1005

EAN: 8433281014312

Turn your computer into a **multi-port computer** thanks to its three USB-A connectors and USB-C connector, without giving up the ability to charge your devices by incorporating a USB-C charging port. Plus, it's designed so you can take it with you wherever you go.

With our HUB you will be able to **charge your devices** and transfer data at high speeds anywhere, without having to worry about installing any software to use it.

With a smooth, sleek design, it fits perfectly into your computer. And it's so **small and light**, you can store it anywhere.

Thanks to its **100W USB-C port**, you are guaranteed fast charging **(this port is ONLY for charging, it does not transfer data)**.
