Highlights

Unique OneBlade Technology

Philips OneBlade has a revolutionary technology designed for facial grooming. It can shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (12000x per min) so it's efficient - even on longer hairs.

Innovative 360 Blade

The innovative 360 Blade can flex in all directions to adjust to the curves of your face. The design enables constant skin contact and control. Easily trim and shave hard-to-reach areas — with just a few strokes and great comfort.

Trim away

Trim your beard to a precision stubble length with one of the 3 included stubble combs. 1 mm for a 5 o'clock shadow, 3 mm for a tight trim and 5 mm for long stubble.

Edge it up

Create precise edges with the dual-sided blade. You can shave in either direction to get great visibility and see every hair that you're cutting. Line up your style in seconds!

Shave it off

OneBlade doesn't shave as close as traditional blade - so your skin stays comfortable. Go against the grain and shave off any length of hair easily.

Dual-sided blade

OneBlade follows the contours of your face, allowing you to easily and comfortably trim and shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

USB-A charging

Can be charged at home or on the road, perfect for your daily routine and for travel.

Highlights

Blade that doesn't fade easily

Durable stainless-steel blade that lasts up to 4 months of use* to keep that fresh feel. When the replacement indicator - eject icon - appears on the blade, the blade performance may no longer be optimal. It is time to consider changing the blade for the best shaving experience

Wet and dry

OneBlade is fully waterproof (IPX7), so it is easy to clean: just rinse it under the tap. You can shave wet or dry, even in the shower - whichever you prefer. No shaving foam needed.

Long lasting battery

Rechargeable Ni-MH battery delivers 45 minutes of constant shaving power after an 8 hour charge.
