

# ThinkPad L14 Gen 3 (AMD)

The right device can help your workforce adapt effectively to the changing times. This 14" laptop, powered by AMD Ryzen processors, allows business professionals to work efficiently from anywhere. Experience faster internet speeds through WiFi 6 or the optional 4G WWAN module. AMD Radeon Graphics enables faster responsiveness for enhanced content creation and editing experience. Firmware TPM 2.0 encrypts data end-to-end.

## Built for business with cutting-edge technology

The mid-range ThinkPad L Series offers enterprise docking, enhanced security features and optional remote management capabilities.

Choose between FHD and HD display options; both come with an anti-glare coating that makes it easier to see the screen. There are 2x USB-C ports for high-speed data transfer and connection to external displays or other essential peripherals.

The device can last more than 7 hours and also supports rapid charging for uninterrupted productivity. Security features include an optional IR camera with built-in privacy shutter, Kensington security lock for physically securing the device, and data encryption technologies.

Fast and responsive performance with AMD Ryzen processors, PCIe SSD storage and AMD Radeon graphics.

## Lenovo services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

### Premier Support

- Talk directly with advanced technical support agents
