

24" 3-side borderless monitor featuring IPS (In-Plane-Switching) panel with a 16:10 aspect ratio and height-adjustable stand

Providing excellent performance for graphics applications in CAD, and ideal for Universities, Corporate and Financial Markets. The ProLite XUB2495WSU-B7 features an IPS panel offering accurate and consistent colour reproduction with wide viewing angles. The 1920 x 1200 native screen resolution and a 150mm height-adjustable stand featuring pivot and swivel functions deliver great versatility and comfort of use.

IPS Technology

IPS displays are best known for wide viewing angles and natural, highly accurate colours. They are especially suited for colour-critical applications.

HAS (150mm) + Pivot (rotation both sides)

With a height adjustable stand you will create an ergonomic work posture and position that meets all health and safety requirements. This will not only prevent any health issues but will also increase your productivity. The pivot function allows the screen to rotate from landscape to portrait orientation. This functionality can be useful if the application requires more height than width.
