EW1267

Portable aluminum notebook stand with 360° rotation

• Ergonomic adjustment in height and viewing angle to reduce neck and shoulder pain. 360° rotation to better view and share information
• Robust and Stable made of aluminum alloy with non-slip silicone pads, so that your computer remains stable on the stand
• Greater cooling for the computer that prevents it from overheating
• Portable, you can easily carry it in your computer bag or backpack
• Suitable for: laptop under 17.3 inches, tablets and mobile phones

DESCRIPTION

Wide visibility:
The laptop stand is built with a 360° rotating base, making it easy to share the information present on your laptop screen with others.
Portable but stable:
Made of high quality aluminum alloy. The base of the support together with the design of its rotating support allows for great stability to the set and keeps the support with the laptop stable at the desired height and angle, providing less wobble and more stability.
Greater cooling.
Its design with a large window allows the computer to enjoy great ventilation. This is essential for optimal operation of the equipment, ensuring that the hot air generated by the high temperatures generated by the computer's processors is evacuated cleanly, thus avoiding any obstacles.
Greater ergonomics. Watch your health:
Adjustable height and viewing angle. Foldable design
By allowing you to adjust the height and viewing angle, they make it more ergonomic. This allows you to maintain the desired height so that the laptop screen is at eye level. This simple action avoids working with a hunched back, thus preventing neck and back pain. This support has the possibility of being folded, thus allowing it to be easily stored or kept more collected, keeping your workspace or office with a cleaner appearance.
Compatibility:
Compatible with many laptop brands and models: The stand is compatible with any laptop between 10 and 17.3 inches, including Mac, MacBook Air, MacBook Pro, Microsoft Surface, HP, Google PixelBook, Dell XPS, ASUS, Lenovo, Acer , Chromebook, etc.

TECHNICAL

•
• Material: Aluminum alloy and Silicone
• Net Weight: about 630g
• Function: Portable, foldable, 360° rotatable
• Color: Silver
