

54-Port Layer 2+ Gigabit Ethernet Managed Switch / 54-Port Layer 2+ Gigabit Ethernet Managed Switch with PoE ES0154 / ES0154P

The ES0154 / ES0154P 54-Port Layer 2+ Gigabit Ethernet Managed Switch is ideal for installation with ATEN KVM over IP products. It simplifies the process of building OT infrastructure with the ATEN KVM over IP series by eliminating the complexities of setup. It provides a high-performance 54-port configuration, a complete array of L2+ features, and advanced functionalities including Layer 3 static route, DHCP server, IPv6 support, and LLDP, making it a versatile solution for enhancing network performance. Both the ES0154 and the ES0154P offer a combination of SFP28 (fiber) and RJ-45 (copper) ports for servicing a range of network needs.

The ES0154 delivers 6 (1G/10G/25G) SFP28 and 48 (10M/100M/1G) RJ-45 ports, while the ES0154P supports 6 (1G/10G/25G) SFP28, 48 (10M/100M/1G) RJ-45 with PoE+ (Support 802.3at/af) ports, and PoE++ (Support 802.3bt) ports (41-48 ports only). The ES0154P is equipped with Power over Ethernet (PoE) functionality, featuring a substantial 740 Watts power budget distributed across its 48 RJ-45 ports. This eliminates the necessity for external power adapters and leads to a substantial reduction in power configuration expenses.

Deploying the ES0154 / ES0154P is quick and hassle-free. Its plug-and-play design eliminates the need for software installation or device configuration. Just connect the transmitters and receivers to the ES0154 / ES0154P using Cat 5e/6 cables. With a full range of functions to help with optimizing network efficiency, manageability and reliability for their network environment, the ES0154 / ES0154P serves as an ideal network switch solution. It is particularly valuable in applications where connected devices play a critical role in network operation, including OT infrastructure for both SMBs and enterprises.

Features

- Supports plug-and-play with KE, VE89 series devices
- Supports 48 Gigabit Ethernet ports and 6 SFP28 uplink ports (up to 25Gbps)
- High-performance Gigabit Ethernet L2+ access switch with 396 Gbps switching capacity significantly improve the responsiveness of applications and file transfer times
- 802.3af PoE / 802.3at PoE+ / 802.3bt PoE++ (41-48 ports only) port configuration and scheduling
- Supports IGMP v1/v2/v3 Snooping and IGMP v1/v2 Querier
- Supports IGMP Snooping Fast Leave
- Supports Flow Control
- Comprehensive QoS allowing the marking, classification, and scheduling of up to four traffic types across the network
- Enhanced Security Port Security limits the total number of devices using a switch port and protects against MAC flooding attacks
- Supports IEEE 802.1w Rapid Spanning Tree Protocol ensuring a faster recovery from failed links and enhancing overall network stability and reliability
- Supports IPv4, IPv6

Specifications

	ES0154	ES0154P
Connectors		
RJ-45 10/100/1000 Ports	48	
SFP28 Uplink Ports	6	
Console Ports	1 x RJ-45	
Remote Console	1 x RJ-45	
USB Port	1	
Performance		
Switching Capacity	396 Gbps	
Forwarding Rate	295 Mpps	
Flash Memory	256 MB	
DRAM	1 GB	
MAC Address Table Size	32 K	
Jumbo Frames	10 KB	
Auto-negotiation	Yes	
Maximum Input Power Rating	100-240V AC,50-60 Hz	
Power Consumption	54W	835 W
Power over Ethernet (PoE)		
Standard compliance	N/A	802.3af PoE / 802.3at PoE+ / 802.3bt PoE++ (41-48 ports only)
Number of Ports That Support PoE/PoE+	N/A	48 ports
Total PoE Power budget	N/A	740 W
Max. PoE Power budget per port	N/A	PoE : 15.4W/ PoE+: 30W / PoE++: 90W (41-48 ports only)
Environmental		
Operating Temperature	-5 – 45 °C	
Storage Temperature	-40 – 70 °C	
Humidity	5 – 95% RH, Non-condensing	
Physical Properties		
Rack Space	19"	
Housing	Metal	
Weight	4.68 kg	5.42 kg
Dimensions (L x W x H)	44.20 x 42.00 x 4.36 cm
