

LFD - SIGNAGE DISPLAYS**INFORMATION****50" Professional Digital Signage display with 4K UHD resolution and 24/7 operating time**

Set in a slim bezel, the iiyama LH5041UHS is a professional digital signage display offering 24/7 operating time in portrait and landscape orientation.

The 4K UHD resolution (3840x2160) provides exceptional colour and image performance. With the built-in media player you can play your favourite music and show your most beautiful videos, photos and images directly on screen.

4K

UHD resolution (3840x2160), better known as 4K, offers a gigantic viewable area with 4 times more information and work space than a Full HD screen. Due to the high DPI (dots per inch), it displays an incredibly sharp and crisp image.

LAN Control

LAN control enables making adjustments in the display OSD menu through your network (software not included).

VA

VA panel technology offers higher contrast, darker blacks and much better viewing angles than standard TN technology. The screen will look good no matter what angle you look at it.

AG Coating

The anti-glare coating is used in professional-grade displays to help avoid issues with reflections and external light sources affecting colour reproduction, contrast and sharpness. It also makes the screen less susceptible to dust, grease and dirt marks.
