DESCRIPTION

ATGBICS SFP-25G-LR transceiver is a very compact 25Gb/s optical transceiver module for serial optical communication applications at 25Gb/s. The SFP-25G-LR converts a 25Gb/s serial electrical data stream to 25Gb/s optical output signal and a 25Gb/s optical input signal to 25Gb/s serial electrical data streams. The high speed 25Gb/s electrical interface is fully compliant with SFI specification.

The high performance 1310nm VCSEL transmitter and high sensitivity PIN receiver provide superior performance for Ethernet applications at up to 10km links.

The SFP28 Module is compliant with SFF-8431, SFF-8432 and IEEE 802.3ae 25GBASE-LR. Digital diagnostics functions are available via a 2-wire serial interface, as specified in SFF-8472.

The fully SFP compliant form factor provides hot pluggability, easy optical port upgrades and low EMI emission.
