Easy smart lighting

Handblown and made of crystal-clear glass, Lightguide bulbs are a statement piece. The reflections from its inner tube and coating play off of each other, creating a unique light effect that perfectly complements its unique globe shape.

Easy smart lighting

- Control lights with your voice*
- Create a personalised experience with colourful smart light
- Unlock the full suite of smart lighting features with the Bridge
- Designed to be on display

Highlights

Control lights with your voice*

Philips Hue works with Amazon Alexa and the Google Assistant when paired with a compatible Google Nest or Amazon Echo device. Simple voice commands allow you to control multiple lights in a room, or just a single lamp.

Create a personalised experience with colourful smart light

Transform your home with over 16 million colours, instantly creating the right atmosphere for any event. With the touch of a button, you can set a festive mood for a party, turn your living room into a movie theatre, enhance your home decor with colour accents, and much more.

Unlock the full suite of smart lighting features with the Bridge

The Bridge unlocks the features that make smart lighting truly smart – away-from-home control, voice control, automated lighting and much more. Add a Bridge to your setup to create immersive experiences, tap into technology that's secure and reliable, and more. The Bridge is the key to smart lighting like you've never seen before.

Designed to be on display

With a glowing inner tube, glossy finish and unique shapes, Lightguide bulbs are the epitome of modern style. The inner tube can shine in any of millions of colours of light, and the reflective glass finish makes the bulb shine even brighter.

Specifications
