Highlights

Protects your sensitive areas

The SkinProtect blade gives an extra layer of protection from skin irritation for sensitive armpit and intimate skin.

Easily shave in both direction

The dual-sided blade allows you to shave in both directions to easily reach those tricky spots and create clean lines or an extra touch of styling precisely where you want.

Durability

Durable stainless steel blades are designed for lasting performance. For optimal performance, you will only need to replace each blade every 4 months*. Replacement is easy and hassle free.

Shave wet or dry

OneBlade is fully waterproof (IPX7), so you can shave wet or dry, with or without foam, even in the shower. It is easy to clean — just rinse it under the tap.

Unique OneBlade Technology

Now our famous OneBlade technology is ready for your armpits and those intimate regions down below, no matter how long you've let things grow. While the quick cutter mows through all that hair at a speed of 100 x per second, the rounded edges and bridge of the skin protector and rounded tips protect your skin under there and down below.

Fits on all OneBlade handles

Fits with all OneBlade products: OneBlade (QP25xx, QP26xx, QP27XX, QP28XX), OneBlade Pro (QP6504, QP653x, QP654x, QP665x) except for QP1XXX, Q11XXX, QP652x, QP651x, QP662x, QP6505
