## AVENT

PPSU Natural Baby  
Bottle

Philips Avent

2 Bottles

9oz/260ml

3-6m

Medium Flow Nipple

SCY943/02

**Made of durable, lightweight\* and heat-resistant\*\*  
PPSU**

**Premium, BPA-free material\*\*\***

Made of amber-golden PPSU, a BPA-free material with high heat resistance of up to 180°C/356°F; the bottle looks like glass but has the lightness and break resistance of high-quality plastics.

**Easy to combine breast and bottle feeding**

- Baby controls the pace, like breastfeeding
- Natural latch on with breast-shaped nipple
- No-drip nipple design prevents spills and lost milk

**Other benefits**

- Choose the right nipple flow for your baby
- Same products, new navigation
- Easy to hold even for little hands
- Natural Response Nipples and Bottles are BPA free\*\*
- Simple to use, easy to clean and quick to assemble
- Compatible across the Philips Avent range

**Premium PPSU material**

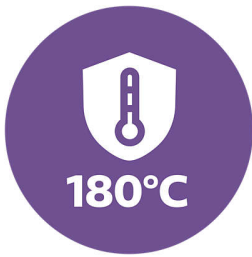

- A high heat resistance\*\*, lightweight material

**Vents air away from your baby's tummy**

- Designed to reduce colic and discomfort

# Highlights

## Made with premium PPSU

Known for its amber-golden color, PPSU gives you both comfort and durability. The material has a high heat resistance\*\*, similar to glass, while still being lightweight. Perfect for baby's hands or daycare.

## Natural Response Nipple

The Natural Response nipple has a unique opening that lets your baby control the pace of milk flow, releasing it only when actively drinking - just like babies do during breastfeeding. So, when they pause to swallow and breathe, the milk pauses too.

## Natural latch on

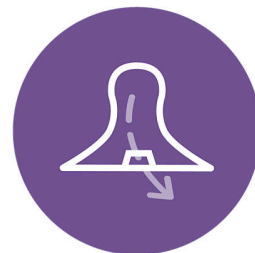

The wide, soft and flexible nipple is designed to mimic the shape and feel of a breast, helping baby to latch on and feed comfortably.

## BPA free\*\*

The Philips Avent Natural bottles and nipples are made of BPA free\*\* material.

## Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

## No-drip teat

The unique nipple opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

## Find the right nipple flow

Every baby feeds differently, and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalize your bottle. All of the Natural Response Nipples are made of soft silicone.

## Same products, new navigation

We have moved to a pace-based flow navigation system. Start with the nipple that comes with the bottle. Try a lower flow if milk is leaking from baby's mouth or baby is gulping. Try a higher flow if baby is playing with the nipple instead of drinking or seems frustrated. As we make this update, you may receive either style of pack.

# Highlights

## Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

## Easy to hold

The ergonomic bottle is easy to grip at any angle to give maximum comfort during feeding. Easy for your hands and tiny hands to hold.

## Compatible across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it.

# Specifications

## Material

**Bottle:** BPA free\*\*
