

Stable temperature, always cool

DynamicAir Technology creates an airflow, moving cool air around the fridge, so there's always a stable temperature in every corner. Preserving ingredients from losing shape or drying out.

Product Benefits & Features
Consistently cool, with DynamicAir

DynamicAir makes sure that the environment inside your fridge is kept at a stable temperature. It works by circulating cool air throughout, meaning that even when the door is opened, your food is protected from heating up.

The Touch Electronic Control on Top offers easy access to functions

Precisely set the temperature and easily access the Refrigerator functions, thanks to the clear display of the Touch Electronic Control on Top.

Make room for tall items with FlexiShelf

With FlexiShelf, you can reorganise the interior of the fridge however you like. The movable, half-depth glass shelf can slide back, extend fully, or just halfway, to make room for taller items. The right flexibility for all storage needs.

Fully extendable drawer. For effortless access

Its never been easier to access your fresh produce with the fully extendable drawer. The convenient design means that it can be pulled the whole way out. Offering an easier way to store and get whatever ingredients you want.

Smooth, quite, soft closing door

Enjoy specially crafted door hinges that help to prevent an accidentally open fridge door that can lead to wasted energy and spoiled food by ensuring a snug, secure and quiet experience when closing the door.
