Product ID: USB2EPR13FW

Connect a charger to a USB Power Delivery (PD) 3.1-enabled device, using this USB-C Charging Cable. The USB-C charger cord delivers up to 240W of Extended Power Range (EPR) Power Delivery and 5A output for fast charging. The connector markings enable quick visual identification, distinguishing this cable from other similar-looking or unmarked USB-C cables. Eliminate guesswork and always choose the appropriate Type-C cable to support full 240W charging.

Designed for frequent use, the USB-C EPR Charging Cable features a rugged TPE outer jacket for increased wear resistance. The durable nickel-plated connectors are rated to operate beyond 10,000 insertion cycles, enhancing its durability and longevity.

Charge a USB-C device with a USB-C wall charger, car charger, or power bank. The 13-foot (4-meter) USB Type-C cable is longer than standard USB-C charging cables and is ideal for larger desk and mobile workspaces where extra reach is required.

With up to 5A of output, the USB-C Charger Cord supports up to 240W of Power Delivery to charge a USB-C laptop, or fast charge a tablet or smartphone. To use, connect the cable from a USB-C laptop to a USB-C wall charger.
