- With an accessory, print multi-size A4/A to A1/D projects without manually switching the media source.<sup>3</sup>
- Print your jobs and manage your plotter virtually anywhere, anytime with the HP app.<sup>4</sup>

## RESPONSIBLY DESIGNED—Reduce energy and plastic use

- Save 65% energy<sup>5</sup> with the printer on/off auto scheduler and enjoy efficient ink maintenance routines<sup>6</sup>.
- Minimize plastic waste by more than 70% with a new molded fiber packaging and removal of most plastic bags.<sup>7</sup>
- Made with at least 40% recycled plastic<sup>8</sup> and the first HP large format printer containing recycled metal.<sup>9</sup>
- Certified by UL ECOLOGO<sup>®</sup><sup>10</sup>. Registered in EPEAT Gold and achieves EPEAT Climate+<sup>11</sup>.

## OPTIMIZED—Fits the way you work

- Save space with the world's smallest plotters<sup>1</sup> designed to fit your office.
- Avoid waiting by the printer with printing as fast as 30 seconds per A1/D plot.<sup>12</sup>
- Protect your printer from cyberthreats with HP Wolf Essential Security.
- Get high-quality results—HP Bright Office Inks deliver better line accuracy<sup>13</sup> and up to 34% more gamut.<sup>14</sup>

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>

## Messaging Footnotes

<sup>1</sup>Based on competitive comparison of operational footprint. Test performed by Sogeti and commissioned by HP in May 2024.

<sup>2</sup>HP One-click printing with HP Click software. HP Click software is only compatible with Original HP ink supplies. Applicable to PDF, JPEG, TIFF, DWF, and HP-GL/2 files.

<sup>3</sup>Requires purchase of HP DesignJet T200/T600 Automatic Sheet Feeder accessory. Not included, sold separately.

<sup>4</sup>Requires HP Smart app download available at <https://www.hp.com/go/mobileprinting>. Certain features are available in English language only, and may vary by printer model/country, and between desktop/mobile applications. HP reserves the right to introduce charges for use of functionality facilitated by the HP app. Internet access required and may not be available in all countries. HP account required for full functionality. List of supported operating systems available in app stores.

<sup>5</sup>The percentage reductions in energy consumption are based on tests conducted by HP, 2024. Data based on the implementation of auto-scheduled on/off usage in various printer models, measured on a monthly basis. Actual savings may vary depending on the specific usage patterns, printer models, and environmental conditions.

<sup>6</sup>Use up to 96% less ink for routine maintenance vs. competitor. Based on HP internal testing, June 2024, comparing the HP DesignJet T200 Printer series and Canon iPF TM printer series in terms of ink used during routine printhead cleanings.

<sup>7</sup>The HP DesignJet T200/T600 2025 Edition plotter series uses polystyrene-free packaging with molded pulp cushioning made from recycled fiber-based material. The plastic reduction is expressed as a percentage of the total packaging plastic weight. The reduction varies depending on the printer model, with at least a 53% reduction in the new 36-inch model and at least a 72% reduction in the new 24-inch model, compared to the previous T200/T600 models.

<sup>8</sup>Recycled plastic is expressed as a percentage of the total weight plastic. Post-consumer recycled content is based on the definition set in the EPEAT standard for imaging equipment, IEEE 1680.2.

<sup>9</sup>Incorporation of a minimum of 5% of certified recycled metal, expected to be implemented in units manufactured after April 1st, 2025. Recycled metal is expressed as a percentage of the total weight of the metal according to ISO 14021 definitions for metal. This number is the minimum and may vary slightly due to manufacturing processes and material availability.

<sup>10</sup>UL ECOLOGO Certified HP 712 inks meet a range of stringent human health and environmental considerations. For certifications, see <http://www.ul.com/EL> and <http://www.ul.com/gg>

<sup>11</sup>The T200/T600 EPEAT Gold in the U.S. and Canada and has achieved EPEAT Climate+. See <https://www.epeat.net> for registration status and tier levels by country.

<sup>12</sup>The HP DesignJet T250 24-inch Printer delivers A1/D prints in 30 seconds.

<sup>13</sup>Better line accuracy based on test commissioned by HP and performed by Sogeti in June, 2024. Clear lines based on the number of line breaks found in 2 mm of line. On vertical and diagonal 1px RGB (160|160|160) lines. Printed on Oce 75 g plain paper using equivalent fast print modes. For output produced with HP DesignJet T200 Printer series, Canon iPF TM printer series and Canon iPF TC-20. Test performed under the same conditions in all printers measuring with OEA PIAS II digital microscope tool.

<sup>14</sup>Up to 34% more color gamut based on test commissioned by HP and performed by Sogeti in June 2024, of gamut volume comparing prints from the HP DesignJet T200 Printer series, Canon iPF TM printer series, Canon iPF TC-20 and Epson SC-T3100 on Oce 75gsm plain paper using equivalent fast/draft print modes.
