

# HP's smallest plotters<sup>1</sup>-intuitive and responsibly designed.

\*Product image may differ from actual product

## INTUITIVE-Easy, effortless printing

- Simplify printing with the new HP Click Print solutions—save time with real-print preview.<sup>2</sup>
- With an accessory, print multi-size A4/A to A1/D projects without manually switching the media source.<sup>3</sup>
- Print your jobs and manage your plotter virtually anywhere, anytime with the HP app.

#### **RESPONSIBLY DESIGNED-Reduce** energy and plastic use

- Save 65% energy<sup>5</sup> with the printer on/off auto scheduler and enjoy efficient ink maintenance routines<sup>6</sup>.
- Minimise plastic waste by more than 50% with a new molded fiber packaging and removal of most plastic bags.
- Made with at least 40% recycled plastic<sup>8</sup> and the first HP large format printer containing recycled metal.
- Certified by UL ECOLOGO®.<sup>10</sup> Registered in EPEAT Gold and achieves EPEAT Climate+<sup>11</sup>.

#### **OPTIMISED-Fits the way you work**

- Save space with HP's smallest plotters<sup>1</sup> designed to fit your office.
- Avoid waiting by the printer with printing as fast as 30 seconds per A1/D plot. ^{12}  $\,$
- Protect your printer from cyberthreats with HP Wolf Essential Security.
- Get high-quality results-HP Bright Office Inks deliver better line accuracy<sup>13</sup> and up to 34% more gamut.

Dynamic security enabled printer. Contains technology that may prevent cartridges with non-HP chips or circuitry from working now or in the future. More at: http://www.hp.com/learn/ds

#### Messaging Footnotes

<sup>1</sup>Based on competitive comparison of operational footprint. Test performed by Sogeti and commissioned by HP in May 2024.

<sup>4</sup>Requires HP Smart app download available at https://www.hp.com/go/mobileprinting. Certain features are available in English language only, and may vary by printer model/country, and between desktop/mobile

applications. HP reserves the right to introduce charges for use of functionality facilitated by the HP app. Internet access required and may not be available in all countries. HP account required for full functionality. List of

applications. In Fisce ves the fight of induce straiges of use of inductionary mainted by the particulation of a particulation of auto-scheduled on/off usage in various printer models, measured on a monthly basis. Actual savings may vary depending on the specific usage patterns, printer models, and environmental conditions. <sup>6</sup>Use up to 96% less ink for routine maintenance vs. competitor. Based on HP internal testing, June 2024, comparing the HP DesignJet T200 Printer series and Canon iPF TM printer series in terms of ink used during

<sup>7</sup>The HP Design Jet T200/T600 2025 Edition plotter series uses polystyrene-free packaging with molded pulp cushions made from recycled fiber-based material. The plastic reduction is expressed as a percentage of the

total packaging plastic weight. The reduction varies depending on the printer model, with at least a 53% reduction in the new 36-inch model and at least a 72% reduction in the new 24-inch model, compared to the previous T200/T600 models.

<sup>9</sup>Recycled plastic is expressed as a percentage of the total weight plastic. Post-consumer recycled content is based on the definition set in the EPEAT standard for imaging equipment, IEEE 1680.2.
<sup>9</sup>Incorporation of a minimum of 5% of certified recycled metal, expected to be implemented in units manufactured after April 1st, 2025. Recycled metal is expressed as a percentage of the total weight of the metal

according to ISO 14021 definitions for metal. This number is the minimum and may vary slightly due to manufacturing processes and material availability. <sup>10</sup>UL ECOLOGO<sup>®</sup> Certified HP 712 inks meet a range of stringent human health and environmental considerations. For certifications, see http://www.ul.com/EL and http://www.ul.com/gg

<sup>11</sup> The T200/T600 is EPEAT Gold in the U.S. and Canada and has achieved EPEAT Climate+. See https://www.epeat.net for registration status and tier levels by country <sup>12</sup> The HP DesignJet T250 24-inch Printer delivers A1/D prints in 30 seconds.

<sup>16</sup> The HP DesignJet 12:00 24-inter Frinter derivers AI/D prime in 30 seconds. <sup>13</sup> Better line accuracy based on test commissioned by HP and performed by Soget in June, 2024. Clear lines based on the number of line breaks found in 2 mm of line. On vertical and diagonal 1px RGB (160,160,160) lines. Printed on Oce 75 g plain paper using equivalent fast print modes. For output produced with HP DesignJet T200 Printer series, Canon iPF TM printer series and Canon iPF TC-20. Test performed under the same conditions

in all printers measuring with QEA PIAS II digital microscope tool. <sup>14</sup> Up to 34% more color gamut based on test commissioned by HP and performed by Sogeti in June 2024, of gamut volume comparing prints from the HP DesignJet T200 Printer series, Canon iPF TM printer series, Canon iPF TC-20 and Epson SC-T3100 on Oce 75gsm plain paper using equivalent fast/draft print modes.
