## Footnotes

### Messaging Footnotes

<sup>1</sup> Due to the non-industry standard nature of some third-party memory modules, we recommend HP branded memory to ensure compatibility. If you mix memory speeds, the system will perform at the lower memory speed.

<sup>2</sup> HP Total Test Process testing is not a guarantee of future performance under these test conditions.

### Technical Specifications Footnotes

<sup>1</sup> Data transfer rate may be lower depending on the platforms.

<sup>2</sup> Graphics chipset uses part of the total system memory (RAM) for graphics performance. System memory dedicated to graphics performance is not available for other use by other programs.

<sup>3</sup> Recycled plastic is expressed as a percentage of the total weight plastic. Post-consumer recycled is based on the definition set in the EPEAT® standard for computers, IEEE 1680.1-2018 standard.
