SKU Code: **PBSOLAR10000O**
10000mAh Portable Charger with solar panel

Technical Features:

- Capacity: 10000mAh
- Solar Panel EFTE 1.5W
- IP54: water and dust resistant
- 1xUSB-C Power Delivery 20W
- 1xUSB 18W QC

Compatibility:

All Smartphones

DESCRIPTION

A 10000mAh portable charger, equipped with a **solar panel featuring ETFE technology** that ensures 20% faster collection of solar energy, excellent resistance to water, dust, and high temperatures, and enhanced durability over time. This panel allows recharging the power bank through direct sunlight, in addition to standard cable charging.

It enables charging two devices simultaneously, thanks to the USB-C Power Delivery 20W port and the 18W QC USB port.
