Bendable LC-LC Singlemode fibre cable duplex 2m OS2 LSZH

The Lanview Bendable series offers a versatile solution for cable management, capable of bending and sustaining any angle from a straight line up to 90 degrees. Its boot, molded around a single stainless-steel wire, is manually adjustable, allowing the internal wire to preserve the chosen angle or direction.

The boot's design permits reshaping at any moment or straightening for the disconnection of connectors. This flexibility guarantees ideal connector installation in unique circumstances, like areas with restricted space or within high-density settings.

- Designed for Data Centers, Industry and Computer Centers
- LSZH (Low Smoke Zero Halogen) and flame retardant
- Color: Yellow
- Bending radius: 30 mm
- LC/UPC Connector
- Diameter 2.0mm
- Fibre Standard G.652.D
