Eye Massager
E7-EN

Manual

Product diagram

Operation guidance

* Before using this product, please adjust the elastic band to the appropriate length, and then wear it to the eye area. Properly adjust the position and tightness of the massage head according to the wearing situation, and then start the host to experience the massage effect.

Operation steps:

1) Long press the "power key" of the host for about 2 seconds, and the host starts up (with voice prompt, the prompt light is on). The first boot defaults to the vibrant mode, and the mode can be switched by short pressing the "power key". In the power on state, press and hold the "power key" for about 2 seconds to turn off the product (with voice prompt, the indicator light turns off)

2) When you press the "power key" once, the mode will be switched to one gear, and the four modes will be switched in a cycle (with voice prompts: "vibrant mode", "soothing mode", "sleep mode" and "eye exercises mode"; background music will be played when you are in vibrant mode, soothing mode and eye exercises mode). Under different modes, the massage techniques are different, and each mode has the function of hot compress.

3) The host is timed for 15 minutes (± 30 seconds). When the host is powered on, it will start timing. It will automatically shut down after 15 minutes (± 30 seconds), and there will be a voice prompt with the shutdown (if it is automatically shut down in sleep mode, the shutdown prompt tone will not be played)

4) When the mobile phone is turned on, the Bluetooth searches "S1511HB". For the first connection, you need to manually click the connection. After pairing and saving, each time you turn on the Bluetooth, it will connect automatically. After the connection is successful, the voice prompts "Bluetooth connected". After the mobile phone disconnects Bluetooth, the host voice prompts "Bluetooth disconnected". When the mobile phone connects the device with Bluetooth and plays mobile music, the music brought by the device stops and plays mobile music.

5) When the product is under low battery, it will be accompanied by a low power prompt, and the indicator light will change from blue light to orange light; The product will shut down automatically in case of power shortage. When the machine is shut down, the massage mode before the shutdown will be recorded. After the next startup, the machine will return to the massage mode before the last shutdown. When you start up for the first time, enter the default mode (vibrant mode).

Basic product parameters

Device Name	E7-EN	Model	S1511HB
Rated Input Voltage	5V⎓	Rated Input Power	5W
Battery Capacity	1500mAh/5.55Wh		

Note: This product is rechargeable and is suitable for charging with type-C interface. Users need to charge with a standard charger with an output of 5V⎓, 1A.

FC

§ 15.19 Labelling requirements.
This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
§ 15.21 Information to user.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
§ 15.105 Information to the user.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

CE

This device was tested for typical body - worn operations. To comply with RF exposure requirements, a minimum separation distance of 0cm must be maintained between the user's body and the handset, including the antenna. Third - party belt - clips, holsters, and similar accessories used by this device should not contain any metallic components. Body - worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
This device in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. All essential radio test suites have been carried out.
1. CAUTION : RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS
2. The device complies with RF specifications when the device used at 0mm form your body

Old electrical appliances must not be disposed of together with the residual waste, but have to be disposed of separately. The disposal at the communal collecting point via private persons is for free. The owner of old appliances is responsible to bring the appliances to these collecting points or to similar collection points. With this little personal effort, you contribute to recycle valuable raw materials and the treatment of toxic substances.
If you experience discomfort or skin irritation when wearing your smart watch, then we recommend you try cleaning your device. Sometimes residue or foreign materials build up around your device and may aggravate your skin. It's also possible that you are not wearing the watch correctly. We recommend making sure to clean and adjust your watch regularly for a more comfortable fit.
Caution:
• If you experience skin irritation when wearing your watch, please refrain from wearing, and wait two to three days to see if your symptoms ease. If symptoms persist or worsen, please consult a physician.
• If you have eczema, allergies or asthma, you may be more likely to experience a skin irritation or allergy from a wearable device.

IC Caution

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.
Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
