

DNS AI ENC tech with 2 mics for crystal clear calls

Conversations with AI DNN ENC to filters out background noise for clear calls

3 EQ Modes - Bass, Balanced, Podcast

The default Bass booster EQ delivers enhanced bass-heavy music, while balanced mode provides well-balanced sound, and Podcast mode makes voices stand out clearly.

Lag-free mode for gaming and video streaming

With Bluetooth 5.3 and binaural synchronous transmission technology, audio and visuals are always in sync.

In addition, to enjoy your games without any lag, you can turn on Game mode to reduce the latency of audio to as low as 100ms

User Friendly design with GFP & multipoint connection

As soon as you take your earbuds out of the case, they are paired to your Android device in a single tap.

Connect to two Bluetooth devices at the same time to easily switch between music, videos, calls, and more.

Long battery life with fast charging

Up to 8 hrs of listening time with one signal charging, and up to 30 hrs with charging case. Get 2hrs working time to charge the earbuds for 15 mins. Always keep you stay tuned with unlimited music experience
