

Pole extension kit for SPDS2100 - 1450mm - 02

SPDS2123-02

The SPDS2123 pole extension kit is designed for installations in environments with high or suspended ceilings, offering flexibility in screen placement.

With a fixed extension length of 1450mm, allowing customers or installers to easily position screens at their desired height, making it ideal for various ceiling-mounted applications.

For spaces with exceptionally high ceilings, up to two SPDS2123 kits can be combined, providing a tailored solution to achieve the perfect screen height for any installation, expanding the range of installation possibilities.

- Fixed extension length of 1450mm for flexible ceiling-mounted installations
- Can be combined with another SPDS2123 kit for extra-high ceiling solutions
- Compatible with SPDS2100 ceiling mount and part of the SPDS2000 Hook & Rail System
- Supports screen sizes from 22" to 55" in both portrait and landscape orientation
- VESA compatible with 100, 200, 300, and 400 mounting standards
- 5-year warranty
