

Connectivity, power and precision- unleashed

The ultimate device for any mobile worker or executive, ThinkPad X1 Series combines the latest productivity and security technologies with sleek and lightweight designs.

ThinkPad X12 Detachable Gen 2

This sleek device combines advanced technology with exceptional performance to increase productivity wherever modern professionals go. Whether crunching numbers, editing presentations, or running resource-intensive applications, up to Intel® U Series Core™ Ultra 7 Processor ensures smooth performance. With support for up to 32GB LPDDR5x memory and ITB storage space, users can seamlessly switch between applications, store large files, and access data instantly. Ideal for business analysts, financial consultants, and software developers who require robust computing power on the move.

It provides immersive visuals with a 12.3" multitouch detachable display, boasting 400 nits brightness and 100% sRGB color gamut. For analyzing data, creating presentations, or consuming media, it delivers clarity and color accuracy, aiding in improved productivity and creativity.

Easily transform the tablet into a full-fledged laptop with the detachable folio keyboard. Typing emails, writing reports, and collaborating on documents is effortless, allowing writers, journalists, and educators to stay productive on the go.

Benefit from robust software control on this laptop with TPM 2.0 security integration. Coupled with up to 32GB memory, it offers reliable data protection and efficient performance for seamless computing experience.

Lenovo Services
