

Thrustmaster Hypercar Wheel Add-On: elegance meets performance

- Dive into the pure, radical atmosphere of hypercars to max out your meters!
- Sporty design, high-grade materials and customized ergonomics for enhanced performance.
- Natively compatible with Thrustmaster's next-gen Quick Release racing wheel bases.

Premium design:

- High-grade materials: wheel wrapping incorporating leather and Alcantara®
- Sturdy design: optimal rigidity and ideal weight thanks to an aluminum central faceplate and a forged carbon component unique to each wheel
- Oval shape inspired by the wheels found on incredibly-powerful hypercars

Next-gen wheel add-on:

- Natively compatible with Thrustmaster racing wheel bases featuring the next-gen Quick Release system, for a pure experience without the need for a dedicated adapter

Compatibility*:

- **PC (Windows® 10, 11):**
T818 and future Thrustmaster racing wheel bases
- **On PS4™ and PS5™ / Xbox Series® / Xbox One®:**
Future Thrustmaster racing wheel bases

Equipped for demanding drivers:

- Front analog triggers, fully configurable by the user**
- Clutch assist function**: used as a dual clutch, the analog triggers let the user configure the biting point and get off to the fastest possible start
- 4 rotary encoders crafted of aluminum; 25 action buttons
- Adjustable metal paddle shifters (4 customizable positions) with magnetic sensors
- Two user-configurable LEDs, able to display race information and RPM**, with two modes (to adapt to the engine speed specific to different vehicles)

*Compatible on PS4 / PS5 and Xbox Series / Xbox One with games listed on the support website:
