

FlexTop 270

The FlexTop 270 is a compact and lightweight laptop stand and is therefore ideally suited for mobile work.

Easy setup.

The FlexTop 270 can be easily unfolded and set up in a few seconds. Choose one of the 6 height settings, unfold the two foam-covered feet and place your laptop. The stable stand and the anti-slip feet on the underside promise a firm working setup for your laptop on any surface.

Ergonomic background

Using a notebook stand in combination with an external keyboard and mouse increases productivity by 17%. It also significantly improves sitting posture. Neck strain is reduced by 32% and comfort is improved by 21% (Lindblad, 2002). The forearms are also in a more neutral position. Physical complaints are substantially reduced (Boersma, 2002).

We advise working no longer than two hours a day with a laptop unless it is combined with a notebook stand with an external keyboard and mouse.
