## Take Charge with Apex

Apex's ergonomic curves support your hand over the long work day, while its thumb buttons and horizontal scroll wheel let you navigate in whole new ways, especially when combined with our powerful-but-intuitive configuration software that lets you design your own shortcuts.

## 7 Reprogrammable Buttons

The Apex Control app lets you bind any keyboard shortcut you want to any of the mouse's seven button presses, giving you instant, single click access to the functions you use most, or create advanced Macros to automate common tasks.
