

ThinkSmart Tiny Kit

Transform your meeting room into a productive, hassle-free Microsoft Teams Rooms experience with the Lenovo ThinkSmart Tiny Kit. Powered by 13th Gen Intel® Core™ i3 Processor and Windows 11, this dedicated Teams Rooms solution offers an inclusive collaboration space with Realtek® ALC256VB HD audio, video, and native Microsoft applications—all while keeping your laptop free for other tasks. Additionally, this compact device comes with 16GB DDR4-3200 RAM enabling users to handle multiple applications and processes simultaneously without lag. This is beneficial during video conferences, where participants might share presentations, documents, or collaborate on cloud applications in real time.

Purpose-built to improve productivity and collaboration

Combining innovative technology with personalized services, ThinkSmart solutions will improve the way employees work together in today's work-from-anywhere world.

Effortlessly manage meetings, adjust settings, and access applications with the ThinkSmart Controller, equipped with a 10.1-inch display that delivers sharp, clear visuals. Its 10-point anti-fingerprint touchscreen supports multi-user collaboration, making it ideal for tasks like brainstorming, annotating documents, or navigating presentations.

Support for an external monitor via the HDMI® port allows users to connect various devices such as laptops, tablets, and other video sources. Additionally, connecting a Control Panel via the USB-C® port provides a centralized interface for managing meeting room functions such as audio, video, lighting, and screen sharing, simplifying the meeting setup process.

The pre-installed Microsoft® Teams Rooms allows IT administrators to remotely manage and monitor in-room devices, analyze their usage, and streamline maintenance and troubleshooting.

Lenovo Services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

On-site Service

- On-site support if needed
- Normally next business day service
- Agreed appointment times

Accessories

ThinkCentre Nano Power Cage Kit

- Integrate a power supply alongside a ThinkCentre Nano for tidier cable routing
- Fits 65W & 90W Lenovo power adapters smaller than 105x44x28mm (4.1x1.7x1.1")
- VESA mounting can be attached behind displays or secured on walls, ceilings & furniture

PN: 4XF0V81631

ThinkCentre Tiny VESA Mount II

- Supports mounting of a ThinkCentre Tiny to the back of VESA-compatible displays
- Can be used separately or combined with other options for secure mounting
- Simple 4-screw design keeps the device securely attached to the mount

PN: 4XF0N03161
