

Google Meet Series One Room Kits by Lenovo Gen 3

Maximize professional collaborations with the Google Meet One Room Kits, designed specifically for non-mobile working professionals. At its core is the Intel® Core™ i5-1335U processor, paired with 16GB of LPDDR4x memory, ensuring seamless performance even in demanding virtual meetings. Connectivity is optimized with Intel® Wi-Fi® 6E, USB-C®, Thunderbolt™ 4, and HDMI® ports, making the setup more efficient. Whether leading presentations or attending strategic discussions, this kit offers premium compute power and robust connectivity to streamline your communication needs and enhance productivity.

Purpose-built to improve productivity and collaboration

Combining innovative technology with personalized services, ThinkSmart solutions will improve the way employees work together in today's work-from-anywhere world.

The 10.1" multi-touch controller boasts a crystal-clear 1280x800 HD display with anti-glare and anti-smudge features, ensuring an intuitive user experience. With sensors like color and orientation, it adapts quickly, enabling smooth operation in any meeting scenario. It delivers clear audio through a smart audio bar with neodymium woofers and mic pods for good sound quality.

It enhances visual clarity with the 12MP Smart Camera, offering up to 1080p resolution, providing an immersive meeting experience. While sharing ideas or delivering updates, this camera keeps everything crystal clear.

It features robust web conferencing capabilities, including up to 1080p video resolution, high-quality audio with smart audio bar technology, and seamless connectivity options, ensuring clear and engaging virtual meetings for all participants.
