- Avoid heat loss and fit every cup with our adjustable spout

Easy to clean and maintain

- Always a clean machine thanks to auto-clean and descaling
- Easy cleaning thanks to removable brewing group
- Easy cleaning thanks to dishwasher-safe parts
- Cutting-edge design with stainless steel finish

 **Saeco**

Highlights

Stainless steel

The cutting-edge design of your Saeco espresso machine is rounded off by the stainless steel finish. The stainless steel provides a high-quality look and will be a highlight on your kitchen counter tops. It also gives greater resistance for a long-lasting performance.

100% ceramic grinders

This espresso machine is equipped with 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean, for an impeccable espresso. Ceramic also ensures long-lasting performance and totally silent operation.

Quick-heat boiler

The Saeco quick-heat boiler technology ensures your machine is always ready. Now you won't have to wait between brewing each espresso, but can prepare coffee after coffee.

Saves your coffee settings

You will always get a perfect cup of espresso brewed just for you, according to your personal preference, thanks to our innovative memo function for adjusting the coffee length, strength and temperature. Enjoy a superb coffee drink in your favourite cup at the touch of a button.

Adjustable spout

The adjustable spout on our espresso machines will fit every cup and thus prevent

the coffee splashing or cooling down while being poured into your cup. This way your espresso is always served at the right temperature, while the machine is kept clean.

Dishwasher-safe parts

For your convenience, you can put the Saeco's drip tray and milk frother or milk carafe in the dishwasher. This will save time and ensure a hygienic clean.

5-step adjustable grinders

Different coffee blends require different levels of granularity for the full flavour to unfold. The grind granularity of this espresso machine can be adjusted in 5 settings, from the finest grind, for a full-bodied espresso, to the coarsest, for a lighter café crème.

Specifications

Perfect Espresso

- Espresso technology: Saeco adapting system, Aroma-system: pre-brewing

Multi-Beverage

- Milk Variations: Integrated auto milk function

Easy to use

- Cleaning and maintenance: Automatic coffee circuit rinse
