

DREAME

H14 Pro Wet and Dry Vacuum

180° reach - smarter control, effortless cleaning

Dreame H14 Pro

Wet and Dry Vacuum

Smart cleaning, powerful results. Embrace H14 Pro's advanced features for tailored, efficient cleaning: 180° lie-flat reach, smart cleaning solution distribution, app control, and the unique GlideWheel™ power system. Topping it off is a complete clean cycle with auto brush care, featuring 60°C hot water and 5 minutes of hot air drying for a hygienic finish.

Key Features

180° Lie-Flat Reach GlideWheel™ Power System

H14 Pro hugs the floor by fitting its body into spaces as low as 14cm (5.5in) and 9.8cm (3.86in) for the LED-lit brush head*, while cleaning performance is not compromised. Plus, the GlideWheel™ system facilitates back-and-forth movement.

*180°, 14cm (5.5in), 9.8cm (3.86in). The entire body of the vacuum cleaner can reach spaces as low as 14cm (5.5in) and the brush head as low as 9.8cm (3.86in), based on Dreame Lab testing data.

Smart Solution Distribution via App Control

One fill, one month of clean*. H14 Pro now has a cleaning solution box that dynamically varies concentration by dirt level, from 1:200 to 1:30**. Or, fix the concentration to your preference through the Dreamehome App.

*Single fill. A full 120ml cleaning solution can last 30 days of cleaning (1:200 ratio), based on Dreame Lab testing data.
**1:200/1:30. Ratio of cleaning solution to water.

60°C Hot Water Clean 5min Sealed* Hot Air Drying

The PTC heater on the base heats clean water to 60°C (140°F), gently dissolving grime as your brush spins clean. After that, hot air dries the brush in just 5 minutes for a quick refresh.**

*Sealed brush care: The rolling brush is sealed on the base and then dried with hot air.
**5min/1hr high-speed drying at 60°C (140°F). Under conditions of 20~25°C (68~77°F) temperature and 45%RH humidity, based on Dreame Lab testing. Actual usage may vary.

18kPa Suction Power Faster Mops with Fewer Streaks

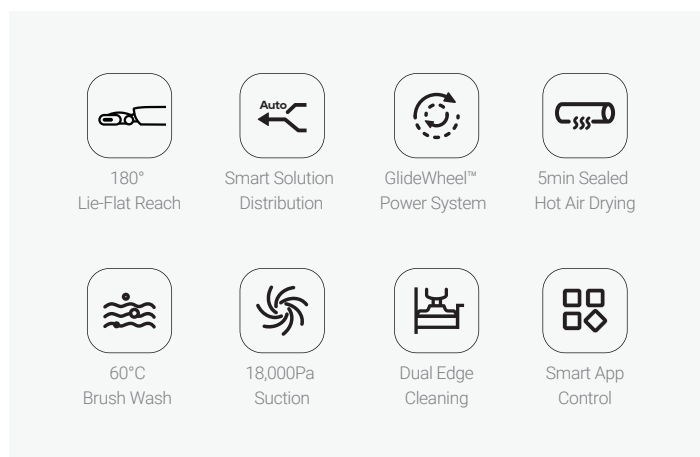

With a 125,000RPM* motor, H14 Pro delivers 18,000Pa* suction to tackle any mess, wet or dry. The brush spins at 520 times per minute**, making it perfect for cleaning challenging debris like spaghetti and chocolate sauce.

*18,000Pa & 125,000RPM motor: Based on GTT Surface Cleaning & Air Treatment Laboratory (Report No.: 0742-23A-01).
**520RPM: Based on Dreame Lab testing data. (Report No.: ZMX-231213-009-14).

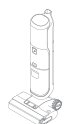

Specifications

Product Name	Dreame H14 Pro Wet and Dry Vacuum
Cleaning Modes	Auto, Suction, Ultra, Custom
Rated Power	400W
Weight	5.7kg
Battery Capacity	6 x 5,000mAh
Maximum Runtime	40min
Charging Time	4hrs
Brush Type	Dual Edge Cleaning
Motor	Brushless
Hot Air Drying Modes	5min (Super-Speed)/1hr (Quiet)
Hot Water Brush Wash	60°C (140°F)
Clean Water Tank	880ml
Used Water Tank	Standing: 650ml/Lie-Flat: 450ml
LED-Lit Brush Head	Yes
