Package contents	- Security camera - Mounting materials - 2m power cable - Power adapter - Manual
System requirements	- 2.4 of 5GHz Wi-Fi network - Mains power supply - Smartphone/tablet (iOS 11+ or Android 6.0+)

Marketing

Extended retailer text	Secure your home and loved ones and monitor entire rooms with this 360° wifi security camera. With 360° view, automatic tracking function and human detection technology, you won't miss a single unwanted visitor. Moreover, you get instant push notifications in the app as soon as the camera detects movement or sound, and enjoy razor-sharp images, both day and night.
-------------------------------	--

360° visibility

With this smart one, you have full visibility over living room, hallway or kitchen thanks to its advanced pan and tilt function. The camera can rotate and tilt, giving you full view of your surroundings. It is even possible to track moving objects automatically. All this is done in razor-sharp image with a resolution of 3MP.

Razor-sharp images 24/7

The Wi-Fi camera offers sharp images, even in the dark. The night vision mode automatically switches on when the light level drops, giving you clear visibility in the evening and at night too.

Prevent false alarms

Thanks to the human detection function, this camera recognises people, reducing false alarms caused by, for example, husky animals walking by. So you only receive notifications when it is really necessary.

Always up to date with push notifications

Thanks to push notifications, you are always immediately aware of what is happening in your home. As soon as the camera detects movement or sound, you will receive an instant notification on your smartphone. So you can see what's going on in the app immediately and take action.

Works with the free Trust WiFi app

Control and monitor your camera easily with the free Trust WiFi app. Whether you want to watch live view, review recordings or use the camera microphone, you can do it all via your smartphone or tablet, without expensive subscription fees.

Built-in siren for optimal security

The 360° smart camera is equipped with a built-in siren that goes off automatically (if desired) upon motion or sound detection. This function can also be controlled manually via the app. So you are optimally protected against intruders.

Specifications

Total weight	382 g
Weight of main unit	276 g
Height of main product (in mm)	72 mm
Width of main product (in mm)	72 mm

Depth of main product (in mm)	109 mm
Sensor type	motion
Sensor resolution	2304x1296
Microphone	Yes
Detection grid	Yes
Lens angle	103 degrees
Night vision	Yes
Night vision range	8 m
Talk back	Yes
Face recognition	No
Face tracking	No
Focus type	fixed focus
Lens material	Glass Plastic
Max Framerate	20 fps
