## Notices

## Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with manufacturer's instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## **Canadian Department of Communications Statement**

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

This class B digital apparatus complies with Canadian ICES-003.

The device may fall, causing serious personal injury or death. To prevent injury, this device must be securely attached to the floor/wall in accordance with the installation instructions.

## NOTE: This monitor is ENERGY STAR certified.

This product qualifies for ENERGY STAR in the factory default setting which can be restored by "Factory Reset" function in the OSD menu. Changing the factory default settings or enabling other features may increase power consumption that could exceed the ENERGY STAR specified limits.

# EHC

## **Declaration of Conformity**

This device complies with the requirements set out in the Council Directive on the Approximation of the Laws of the Member States relating to Electromagnetic Compatibility (2014/30/EU), Low-voltage Directive (2014/35/EU), ErP Directive (2009/125/EC) and RoHS directive (2011/65/EU). This product has been tested and found to comply with the harmonized standards for Information Technology Equipment, these harmonized standards published under Directives of Official Journal of the European Union.

## WEEE Symbol Statement

This symbol on the product or on its packaging indicates that this product must not be disposed of with your other household waste. Instead, it is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment. The separate collection and recycling of your waste equipment at the time of disposal will help to conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. For more information about where you can drop off your waste equipment for recycling, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

## Safety information

- Before setting up this Portable USB Monitor, carefully read all the documentation that came with the package.
- To prevent fire or shock hazard, never expose this Portable USB Monitor to rain or moisture.
- Never try to open this Portable USB Monitor cabinet.
- Before using this Portable USB Monitor, make sure all cables are correctly connected and the power cables are not damaged. If you detect any damage, contact your dealer immediately.
- Avoid dust, humidity, and temperature extremes. Do not place this Portable USB Monitor in any area where it may become wet. Place this Portable USB Monitor on a stable surface.
- Never push objects or spill liquid of any kind into the slots on this Portable USB Monitor cabinet.
- If you encounter technical problems with this Portable USB Monitor, contact a qualified service technician or your retailer.
- This Portable USB Monitor is powered by USB port which complies with LPS and SELV circuit according to IEC62368-1.

## WARNING

Usage of other than specified head- or earphones can result in hearing loss due to excessive sound pressures.

Please confirm the distribution system in building installation shall provide the circuit breaker rated 120/240V, 20A (maximum).

If provided with a 3-pin attachment plug on the power cord, plug the cord into a grounded (earthed) 3-pin outlet. Do not disable the power cord grounding pin, for example, by attaching a 2-pin adapter. The grounding pin is an important safety feature.

Stability Hazard.

The product may fall, causing serious personal injury or death. To prevent injury, this product must be securely attached to the floor/wall in accordance with the installation instructions.

A product may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

ALWAYS use cabinets or stands or installation methods recommended by the manufacturer of the product set.

ALWAYS use furniture that can safely support the product.

ALWAYS ensure the product is not overhanging the edge of the supporting furniture.

ALWAYS educate children about the dangers of climbing on furniture to reach the product or its controls.

ALWAYS route cords and cables connected to your product so they cannot be tripped over, pulled or grabbed.

NEVER place a product in an unstable location.

NEVER place the product on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the product to a suitable support.

NEVER place the product on cloth or other materials that may be located between the product and supporting furniture.

NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the product or furniture on which the product is placed.

If the existing product is going to be retained and relocated, the same considerations as above should be applied.

Excessive sound pressure from earphones and headphones can cause hearing loss. Adjustment of the equalizer to maximum increases the earphones and headphones output voltage and therefore the sound pressure level.

Restriction on Hazardous Substances statement (India) This product complies with the "India E-Waste (Management) Rules, 2016" and prohibits use of Lead, Mercury, Hexavalent Chromium, polybrominated biphenyls(PBBs) and polybrominated diphenyl ethers(PBDEs) in concentration exceeding 0.1% by weight in homogenous materials and 0.01% by weight in homogenous materials for cadmium, except of exemptions listed in Schedule 2 of the Rule.

## Care & cleaning

- Cleaning. Turn your monitor off and unplug the cable. Clean the monitor surface with a lint-free, non-abrasive cloth. Stubborn stains may be removed with a cloth dampened with mild cleaner.
- Avoid using a cleaner containing alcohol or acetone. Use a cleaner intended for use with the LCD. Never spray cleaner directly on the screen, as it may drip inside the monitor and cause an electric shock.

#### The following symptoms are normal with the monitor:

- You may find slightly uneven brightness on the screen depending on the desktop pattern you use.
- When the same image is displayed for hours, an afterimage of the previous screen may remain after switching the image. The screen will recover slowly or you can turn off the Power Switch for hours.
- When the screen becomes black or flashes, or cannot work anymore, contact your dealer or service center to fix it. Do not repair the screen by yourself!
- After multiple uses, there will be a crease or bump problem in the middle of the screen, which is a normal phenomenon.

## Conventions used in this guide

WARNING: Information to prevent injury to yourself when trying to complete a task.

CAUTION: Information to prevent damage to the components when trying to complete a task.

IMPORTANT: Information that you MUST follow to complete a task.

NOTE: Tips and additional information to aid in completing a task.

## Where to find more information

Refer to the following sources for additional information and for product and software updates.

#### 1. ASUS websites

The ASUS websites worldwide provide updated information on ASUS hardware and software products. Refer to http://www.asus.com

#### 2. Optional documentation

Your product package may include optional documentation that may have been added by your dealer. These documents are not part of the standard package.

#### 3. Protect your eyes with ASUS EYE CARE Monitors

The latest ASUS monitors feature exclusive Blue Lighe Filter and Flicker free technologies to keep your eyes healthy in today's digital world.Refer to

https://www.asus.com/Microsite/display/eye\_care\_technology/

## **Takeback services**

ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for our customers to be able to responsibly recycle our products, batteries and other components as well as the packaging materials.

Please go to http://csr.asus.com/english/Takeback.htm for detail recycling information in different region.

#### Product information for EU energy label

## 1.1 Welcome!

Thank you for purchasing the ASUS® Portable USB Monitor!

The latest ASUS Portable USB Monitor provides great portability and simplicity to your daily life, enhancing both of your viewing experience and style.

## 1.2 Package contents

Check your package for the following items:

- ✓ Portable USB Monitor
- ✓ Quick Start Guide
- ✓ Warranty Card
- ✓ USB Type-C Cable
- ✓ Mini HDMI to HDMI Cable
- ✓ Microfiber cloth
- ✓ MTS02D tripod socket kit
- ✓ ZenScreen bag
- ✓ 30W Power Adapter
  - If any of the above items is damaged or missing, contact your retailer immediately.

## 1.3 Warning

Х

Х

1. Please do not pressure around the hinge area. Due to the unique hinge material, adding pressure may damage its foldable design and panel display.

Х

2. Please avoid folding MQ17QH as shown below.

Please use MQ17QH by the following methods.

3. Please avoid leaving objects on MQ17QH. Please also avoid wipe the screen with water or alcohol.

Χ

We offer you a specific cloth. Please kindly use it with maximum openness of MQ17QH within 180 degrees.

4. Note: MQ17QH is not a touchscreen, nor writing display. Please do not touching the screen, or using stylus, or anything sharp to mark on the MQ17QH.

 Due to the unique materials and characteristics of foldable OLED displays, creases in the folding area or slight bulges in the black rubber strips caused by the creases are considered normal phenomena. This does not affect the quality or performance of the display.

## 1.4 Monitor introduction

1.4.1 Front view

- 1. Power button/Power LED
  - Press this button to turn the monitor on/off.
  - The color definition of the power indicator is as the below table.

| Status   | Description  |
|----------|--------------|
| Ice Blue | ON           |
| Amber    | Standby mode |
| Dark     | OFF          |

- 2. Menu button
  - Press this button to enter the OSD menu.
- 3. Close Button
  - Exit the OSD menu.
- 4. Shortcut Button
  - Default setting for this button is "Signal", it can be used to switch input source.
  - "Signal" can be replaced with other frequent used function, go to "Shortcut" and select your favorite function.
  - Key Lock shortcut key. Press and hold it for 5 seconds to enable/disable Keys Lock.

- 5. Earphone
- 6. Mini HDMI port
- 7. USB Type-C 1 port
- 8. USB Type-C 2 port

## 1.4.2 QuickFit Function

The QuickFit function contains two patterns: (1) Grid (2) Photo size.

1. Grid pattern: Facilitates designers and users to organize content and layout on one page and achieve a consistent look and feel.

Alignment grid 1 will be rotated automatically if auto rotation is enabled.

• Auto rotation function is working under Windows OS by installing DisplayWidget Center software or the monitor.

2. Photo size: Provides photographers and other users to accurately view and edit their photos in real size on the screen.

19

## 2.1 Monitor standing positions

You can stand up the monitor by several positions with the kickstand.

Compatible tripod stand: ASUS ZenScreen Stand MTS02D

\*Tripod stand not included.

2.2 Connect the USB monitor with system

or

 USB monitor is working by acquiring power from PC/NB when monitor adapter is not plugged in. If USB monitor detects low power output from PC/NB, the "brightness" of monitor will be fixed at "up to 20 or 30 depends on how much of input power detected", this behavior can avoid monitor from turning off instantly due to lack of power. For higher brightness, please plug in the monitor adapter, the system will enable brightness adjustment to maximum value again.

If remove the monitor adapter, it may cause the monitor to restart (due to limited power supply capability of the laptop).

## 2.3 Announcements

As this product includes magnet in the structure, there could be potential risk to cause the damage of computer hard disc and objects that are sensitive to magnet.

Please ensure not to stack the product with the computer when computer is in use (power on or standby mode) otherwise the hard drive could possibly be influenced by the result of permanent data missing or the computer display could be switched off due to computer auto protection mechanism. When place this product together with computer in the bag, must have the computer power off to avoid possible hard drive damage problem.

• Blue Light: In this function, you can adjust the Blue Light from 0 to max. 0: no changes; Max: The higher the level, the less Blue Light is scattered. When Blue Light is activated, the default settings of Standard Mode will be automatically imported. Besides maximum level, the brightness is user-configurable. Maximum is the optimized setting. It is compliance with TUV low Blue Light certification\*. The brightness function is not user configurable.

\*When the user adjusts Blue Light bar to maximum level.

Please refer to the following to alleviate eye strains:

- Users should take some time away from the display if working for long hours. It is advised to take short breaks (at least 5 mins) after around 1 hour of continuous working at the computer. Taking short and frequent breaks is more effective than a single longer break.
- To minimize eye strain and dryness in your eyes, users should rest the eye periodically by focusing on objects that are far away.
- Eye exercises can help to reduces eye strain. Repeat these exercises often. If eye strain continues please consult a physician. Eye exercises: (1) Repeating look up and down (2) Slowly roll your eyes (3) Move your eyes diagonal.
- High energy Blue Light may lead to eye strain and AMD (Age-Related Macular Degeneration). Blue Light to reduce 70% (max.) harmful Blue Light to avoiding CVS (Computer Vision Syndrome).

#### 3. Color

Select the image color you like from this function.

- **Brightness**: The adjusting range is from 0 to 100. When HDR is enabled, the brightness cannot be adjusted.
- Contrast: The adjusting range is from 0 to 100.
- **Saturation**: The adjusting range is from 0 to 100.
- Color Temp.: Contains three preset color modes (Cool, Normal, Warm) and User Mode.

- When monitor is connected to input device by Type C port, and monitor detects power from input device is too low, the brightness will be fixed at up to 20 or 30 depends on how much of power received by monitor. As soon as the adapter is plugged in, the brightness can be adjusted to maximum value again.
- In the User Mode, colors of R (Red), G (Green), and B (Blue) are userconfigurable; the adjusting range is from 0 ~ 100.

#### 4. Image

You can adjust the image Sharpness, Aspect Control, VividPixel and HDR from this main function.

| ×      | /ISUS                           | MQ17QH<br>  2560 x 1920                   |             | Splendid<br>Standard Mode | Signal<br>HDMI | HDR<br>OFF                              |

| $\vee$ | -<br>-                          | ⊲» ———                                    |             | ¢                         | Navigate       | $\checkmark$ Select $	imes$ Exit        |

- **Sharpness**: Adjusts the picture sharpness. The adjusting range is from 0 to 100.
- Aspect Control: Adjusts the aspect ratio to "Full", "1:1 Ratio".
- **VividPixel**: ASUS Exclusive Technology that brings lifelike visuals for crystal-clear and detail-oriented enjoyment. The adjusting range is from 0 to 100.
- HDR: High Dynamic Range. Contains two HDR modes, Cinema HDR and Gaming HDR, this item is open to choose when HDR is enabled.

When displaying HDR content, image is optimized by HDR standard, the following function(s) are thus not available: Splendid, Blue Light, Color.

#### 5. Signal

Select the input source from **HDMI**, **Type-C 1**, **Type-C 2**, **signal**. The monitor input source will not automatically switch when the Auto Input Detection function is disabled.

#### 6. Settings

Adjusts the system configuration.

- Auto Rotation: To enable/disable rotate image automatically. Set to [ON, By Device], that Auto rotation function is only working under Windows OS by installing DisplayWidget Center software. Set to [ON, By Monitor], that Auto rotation function is rotated by monitor.
- **OLED Setup**: Special setup according to OLED characteristics. Screen protection can be activated here, you might see the pixel shifting in using but this behavior does not influence usage and image clarity. This mechanism is designed to protect OLED from burn in issue, we suggest you always turn it on.
- Volume: Adjusts the output volume level.
- GamePlus: The GamePlus Function provides a toolkit and creates a better gaming environment for users when playing different types of games. Particularly, Chrosshair function is specially designed for new gamers or beginners interested in First Person Shooter (FPS) games. To active GamePlus:

- Select **ON** to enter the GamePlus main menu.
- Press  $\wedge$  /  $\vee$  button to select between Chrosshair, Timer and Display Alignment function.
- Press ✓ to confirm the function you choose. Select × to go off, and exit.

| Screen image bounces or a wave pattern is present in the image   | <ul> <li>Make sure the Signal cable is properly<br/>connected between the Portable USB Monitor<br/>and the computer.</li> <li>Move electrical devices that may cause<br/>electrical interference.</li> </ul>  |
| HDR content is not played properly   | <ul> <li>Make sure the input source supports HDR playback (with proper system settings and latest software).</li> <li>Make sure the content is HDR encoded.</li> </ul>  |
| After connecting with the<br>USB Type-C source device,<br>the power LED lights<br>continuously blinking or<br>showing ASUS logo repeatly | <ul> <li>Check whether the adapter is connected.</li> <li>Use the original Type-C Cable and adapter.</li> </ul>   |
| Can't display image after connecting to Type-C cable   | <ul> <li>Use the original Type-C Cable and<br/>adapter</li> </ul>   |

\*Due to the unique materials and characteristics of foldable OLED displays, creases in the folding area or slight bulges in the black rubber strips caused by the creases are considered normal phenomena. This does not affect the quality or performance of the display.

## 3.4 Supported Timing List

## PC Supported Primary Timing

| Resolution     | H Freq<br>(KHz) | V Freq<br>(Hz) | DCLK<br>(MHz) | Mini HDMI | USB-C |
|----------------|-----------------|----------------|---------------|-----------|-------|
| 640x480-60Hz   | 31.469          | 59.94          | 25.175        | V         | V     |
| 800x600-60Hz   | 37.879          | 60.317         | 40            | V         | V     |
| 1024x768-60Hz  | 48.363          | 60.004         | 65            | V         | V     |
| 1280x720-60Hz  | 44.772          | 59.855         | 74.5          | V         | V     |
| 1280x720-60Hz  | 44.444          | 59.979         | 64            | V         | V     |
| 1280x720-60Hz  | 45              | 60             | 74.25         | V         | V     |
| 1280x960-60Hz  | 60              | 60             | 108           | V         | V     |
| 1280x1024-60Hz | 63.981          | 60             | 108           | V         | V     |
| 1440x900-60Hz  | 55.469          | 59.901         | 88.75         | V         | V     |
| 1440x900-60Hz  | 55.935          | 59.887         | 106.5         | V         | V     |
| 1680x1050-60Hz | 64.674          | 59.883         | 119           | V         | V     |
| 1680x1050-60Hz | 65.29           | 59.954         | 146.25        | V         | V     |
| 1920x1080-60Hz | 67.5            | 60             | 148.5         | V         | V     |
| 2560x1440-60Hz | 88.787          | 59.951         | 241.5         | V         | V     |
| 2560x1920-60Hz | 118.382         | 59.94          | 336.0         | V         | V     |

## Video Timing

| Resolution            | H Freq<br>(KHz) | V Freq<br>(Hz) | DCLK<br>(MHz) | Mini HDMI | USB-C |
|-----------------------|-----------------|----------------|---------------|-----------|-------|
| 640x480P-60Hz         | 29.67           | 59.94          | 21.363        | V         | V     |
| 720x480P-60Hz         | 31.469          | 59.94          | 27            | V         | V     |
