# UltraBoard 950 V2 Wireless

Bakker Elkhuizen

Compact sized wireless USB-C keyboard, allowing you to work inline anywhere, anytime.

Compact yet fully featured

The UltraBoard 950 V2 Wireless Bluetooth keyboard is designed for portability and ergonomic efficiency. Its compact size makes it easy to carry and promotes healthier working habits. The keyboard features a scissor mechanism, 19mm key centre distance, and concave keys with dark lettering on a white background, ensuring precise and comfortable typing. Additional features include hotkeys, integrated multimedia keys, and status LEDs for a more efficient workflow.

Ergonomic background

A compact keyboard without the numeric keypad, which allows placing the mouse closer to the keyboard. Research shows that 90% of users do not use the numeric keypad, if ever. With a compact keyboard you work more comfortably, because it lowers the reaching distance to the mouse (Cook C. et al., 1998). This lightens the load on the forearms and shoulder. Dark letters on a clear background make reading easier (ISO 9241) and contribute to higher productivity (Snyder, 1990).
