

3 m USB-C-laddningskabel, skruvlåsning på sidan, 240 W (5 A) PD EPR, silikonmantel med flätad nylon, USB 2.0-laddningskabel för bärbar dator, USB-IF-certifierad, robust USB-C-laddningssladd

Produkt ID: S2CEPR3M-USBSL-CABLE

Connect a charger to a USB Power Delivery (PD) 3.1-enabled device, using this USB-C Charging Cable. The USB-C charger cord delivers up to 240W of Extended Power Range (EPR) Power Delivery and 5A output for fast charging. The connector markings enable quick visual identification, distinguishing it from other similar-looking or unmarked USB-C cables. Eliminate guesswork and always choose the right Type-C cable to support full 240W charging.

Screw Locking USB-C

This cable features dual locking screws that can securely connect to your USB-C peripherals and can prevent accidental disconnection from your devices such as external hard drives or docking stations. The knurled screws can be removed from the cable completely allowing it to be used as a standard USB-C cable if required.

The screws are designed to fit all devices that use a standard side screw locking input, such as StarTech.com's DK31C3HDPD.

Quality Construction

The USB-C EPR Charging Cable features a silicone jacket with a braided nylon exterior for optimal flexibility and wear protection. The durable nickel-plated connectors are designed for frequently daily use, and are rated to operate beyond 10,000 insertion cycles.

Charge Mobile Devices On The Go

Charge a USB-C device with a USB-C wall charger, car charger, or power bank. The 2-meter (6.6-foot) USB Type-C cable is the ideal length for desk and mobile workstations, commuters, in-car use or to reduce clutter when syncing with a USB-C laptop.

Power a Laptop

With up to 5A of output, the USB-C Charger Cord supports up to 240W of Power Delivery to charge a USB-C laptop, or fast charge a tablet or smartphone. To use, connect the cable from a USB-C laptop to a USB-C wall charger.
