## Description

This high-quality power cord is the perfect solution for connecting high-powered devices in data centers, server rooms, and professional environments. Featuring an IEC C20 plug on one end and an IEC C19 connector on the other, this power cord is designed to handle demanding applications with ease. It supports up to 250V and 16A, making it ideal for

powering servers, network equipment, and enterprise-grade devices.

Manufactured with premium materials, this cord ensures exceptional durability and long-lasting performance. The heavy-duty copper conductors provide excellent conductivity and efficient power delivery, reducing energy loss and ensuring stable performance even under high loads. The connectors are molded with precision to ensure a secure and reliable fit, minimizing the risk of accidental disconnection.
