

HyperX Pulsefire Saga Pro Wireless Gaming Mouse (Black)

PLAY YOUR WAY

Say hello to HyperX's most customizable gaming mouse: the Pulsefire Saga Pro. This mouse uses ergonomically designed interchangeable components to adapt to different grip styles with up to 16 comfortable combinations. Simply swap out the magnetically mounted components to find your perfect fit completely tool-free. Whatever configuration you choose, this mouse weighs in at only 72 grams, so you will never have to sacrifice agility for comfort. This mouse is equipped with pro-grade 4k wireless polling so you can game with confidence knowing every click is captured. Long gaming sessions? No problem! With Pulsefire Saga Pro you can game for up to 90 hours¹ on a single charge in 1kHz polling mode. The upgrades don't stop there. Pulsefire Saga Pro is also equipped with HyperX Optical Switches that balance laser-accurate actuation with a tactile click. Unlike traditional switches that require a mechanical contact, optical switches utilize a light-triggered mechanism that translates clicks to immediate actions. No debounce, no delays. Pulsefire Saga Pro also offers dual wireless connectivity, utilizing a high-speed 2.4GHz wireless dongle or Bluetooth with compatible devices. Or ditch the dongle with Instant Pair, connecting to enabled OMEN gaming laptops without any additional components. The customization goes beyond the surface level. Connect to HyperX NGenuity software to set motion tracking up to 26k DPI, remap buttons, adjust polling rate, set custom RGB effects, and monitor battery life.

Key features

Modular Shell Design Changes the Way You Play

Pulsefire Saga Pro uses interchangeable magnetic components to adapt to different grip styles. Swap from smooth to ergonomic buttons, change shells, and switch side buttons easily and tool free.

Lightweight Any Way You Play

At only 72 grams, Pulsefire Saga Pro is lightweight in any stock configuration. However you play, this mouse is light enough to make quick reactive movements or broad sweeping motions with ease.

Optical Actuation with a Mechanical Feel

HyperX Optical Switches combine laser-accurate actuation with a tactile feel. Optical switches capture clicks rapidly and accurately with no debounce. Click confidently with reduced input latency.

Enhanced Customization with Printable Parts³

The customization doesn't end with the unboxing. Browse additional components to download and print on standard 3D printers. You can even personalize the open-source models to create your ideal fit. Check out the full lineup at www.Printables.com/@HyperX

Pro-Grade 4k Polling Rate

Make every movement count. Pulsefire Saga Pro is equipped with true 4k wireless polling that reports its position up to 4000 times per second! Capture every move with precision and accuracy.

Long Battery Life for Epic Gaming Sessions

Tackle long gaming sessions like a pro. Pulsefire Saga Pro can run up to 90 hours¹ on a single charge in standard 1 kHz mode. Switch to 4 k polling mode for up to 30 hours of pro-tier performance.

Dual-Mode Wireless Plus Instant Pair²

Connect via highspeed 2.4GHz using USB dongle, or switch to Bluetooth mode to connect to compatible devices. Pulsefire Saga Pro is Instant Pair enabled. Link to compatible OMEN laptops dongle-free.

Total Customization with NGenuity Software⁴

Set custom DPI levels up to 26 k, select polling rates up to 4 kHz, adjust RGB colors and patterns, and reassign up to 5 mouse buttons. Make your mouse truly your own with HyperX NGenuity software

Product Names	Product name: HyperX Pulsefire Saga Pro Wireless Gaming Mouse (Black)
Product Numbers	Product number: A2PB2AA
Appearance	Product material: Plastic; Product Primary Color: Black
Battery and Power	Battery life: Up to 90 hours (1000Hz)
Compatibility	Compatibility statement: PC, Xbox Series X S, PS5. Software Compatibility: NGENUITY
Dimensions	Height (metric): 39.8 mm ; Width (metric): 67.2 mm ; Length (metric): 119.7 mm
Memory	Onboard memory: 1 profile
Multimedia and input devices	Cable length (metric): 1.8 m ; Buttons: 6; Light effects: LED RGB lighting ⁴ ; Connection type: 2.4GHz Wireless; Bluetooth 5.0; Wired; Cable type: Detachable, HyperFlex 2 USB-C to USB-A Cable; Mouse Shape: Modular, Asymmetrical; Sensor: HyperX 26K Sensor; Resolution: Up to 26000 DPI; DPI presets: 400 / 800 / 1600 / 3200 DPI; Speed: 650 IPS; Acceleration: 50G; Polling rate: Up to 4000Hz (2.4G - Wireless); Left/ right buttons switches: HyperX Optical Switches; Skate material: PTFE
Weight	Metric: 72 g
What is in the box	HyperX Pulsefire Saga Pro, USB 4k Wireless Dongle, Extension Adapter, USB-C to USB-A HyperFlex 2 cable, Grip Tape, Spare Mouse Skates, Two Button Covers, Two Shells, Two Side Button Pairs, Quick Start Guide
Manufacturer Warranty	2 years

MESSAGING FOOTNOTES

- ¹ Tested under continuous usage with lighting disabled, 2.4 GHz mode. 90-hour battery life with a 1 kHz polling rate. Battery life varies based on usage and computing conditions.
- ² Instant Pair available only on select OMEN laptop models. Polling rate limited to 1KHz in Instant Pair mode. Connecting multiple devices via Instant Pair will affect individual device performance.
- ³ Official 3D models are available at www.printables.com/@hyperx. 3D printer required. HyperX does not guarantee the compatibility and/or functionality of customized components.
- ⁴ Per-LED RGB lighting is customizable with HyperX NGenuity software. Connection via 2.4 GHz wireless dongle or USB cable required for NGenuity. NGenuity Software is only available for Windows OS. Customizations applied do not transfer when moving the mouse to a new device.
- ⁵ NVIDIA Reflex-enabled monitor required. Connection via 2.4GHz wireless dongle in 1000Hz polling mode required for NVIDIA Reflex.
